Introduction

Melchizedek Initiations and Ordinations Programs sponsored by the Azurite Press of the Melchizedek Cloister Emerald Order (MCEO) represent Bio-energetic System / Morphogenetic Field / DNA activations, accomplished through application of Keylontic Science, which serve to accelerate and advance the biological embodiment of and expansion into, higher dimensions of consciousness. Initiation and Ordination Levels correspond directly to specific bio-electric, electro-magnetic and scalar wave manifestations within the body, chakra system, morphogenetic field and consciousness that occur through the process of building the hyper-dimensional Merkaba light-sound vehicle.

Titled Ordination levels are not assigned to provide rank, but rather to clarify the level of individual Merkaba development and consciousness expansion, so that the skill level and bio-energetic ability to carry out specific functions of Keylontic Science Healing, teaching and Morphogenetic Code Transmission can be determined. In this way ordinates are able to chart the path of their own growth more clearly and to more accurately assess their levels of skill in assisting others with bio-energetic / morphogenetic field / DNA work.

The structure of the Ordinations Program is offered as a service to add clarity within the Melchizedek Cloister Bio-Spiritual Evolution Program. Initiations and Ordinations are free of charge, and imply no spiritual, financial or other obligation to the Azurite Press or its ministers. The Azurite Press is a resource facility created by the Melchizedek Cloister-Order of the Yunasai-Azurite Council of the Ra Confederacy, founded by A'shayana Deane – A'shayana Kananda Melchizedek, Eckar (6th-degree Minister) of the Melchizedek Cloister.

The Azurite Press of the MCEO is a nondenominational, egalitarian spiritual service organization dedicated to providing cutting-edge information, teachings, services, and outreach programs for Spiritual Development, Bio-Spiritual Evolution, Healing, World Peace and Planetary Stewardship efforts. We offer a proactive, affirmative action, personal and global healing perspective based upon the paradigms of Keylontic Morphogenetic Science and Stair-Step Creation, which are derived from the Ancient Teachings of the Eternal Dora-Teura, the Living Crystalline Morphogenetic Memory Matrix of Universal Order.

Our programs focus upon awakening to higher consciousness and educated enlightenment and are intended to assist in the cooperative biological and spiritual evolution of all beings through Reverence and Respect for all life. We welcome all with Respect, Reverence, and Unconditional Love.¹

The material presented in this handbook reflects the dynamics of the emerging MCEO materials and the reality that the detailed understanding of major topics is under continuous development; therefore, the contents, and level of detail herein, are as advanced as possible UP TO the date of publication of the source materials. The text is primarily taken from live workshops and sometimes paraphrased for clarity.

Path of Evolution

Once upon a time, each one of us, before we went into becoming individuals, knew ourselves as I AM God.....and not in power over anything, just in union with everything. And as God, the choices were made to experience ourselves in different pieces in different forms. So there was a process that we as God decided to do. We decided to create a framework within ourselves.....not outside of ourselves, but within ourselves, within our own minds.....a framework that used units of consciousness to create reality fields that we could put pieces of ourselves in. So we could learn and be what we were: a Creator.

There is a path of creation, upon which you go, from being in At-One-Ment with the whole collective gestalt identity that we call God, and you pass through creation into existence within time. Then you go through a path of evolution and after cycling through the fifteen dimensional matrices, you will then eventually go through the final stage, which is the Path of Ascension. That is the path of expansion back into what you once were, a face of God.

There are ways to get back to knowing this part of your identity. And what is really wonderful is even though, all through our history here, through our religions and our mystical schools of the ancient times that have little pieces of this process.....they make big deals about those little pieces because they knew they were important, but they didn't have the whole puzzle, so the pieces didn't work really well. The whole puzzle is being given here. The basic framework as far as what one has to go through to first of all understand what it means to be a human here, and second of all, to get back to where we were, or at least give people the flexibility to choose between the stations of consciousness. Right now we are kind of phase-locked or stuck down here.

The process of Ascension of expansion into God consciousness is complex but it is not difficult, and you do not need to know all of the complexities in order to make it work. But there are certain frameworks that help to understand if you are going to take control and say, "I would like to work with the rest of myself, as God and accelerate this process of evolution."..... "I want to experience dimensional ascension."..... "I want to expand my consciousness progressively into at-one-ment with God consciousness." This is something each one of us can reach. It is not impossible. It is a very spiritual concept but it is also a biological concept because as you do this it will directly affect what your DNA is doing.

If we would look within ourselves there are little personality imprints, there is an inner child at various ages, and there are different parts of ourselves that are still healthy, but we are a conglomerate even here. In terms of cosmic structure we are much bigger than that. We have a Soul and an Over-Soul and an Avatar and a Rishi level of identity and even Ascended Master levels beyond that. And what these levels of consciousness are, are gestalts of consciousness, groups of consciousness. Our Gestalt identity is an identity that is one...but it is formed of many. And this is what each one of us are, even within our own little sphere of activity down here.

It is hard to explain in logical terms sometimes, what it means that, "ok, I am one of many!" It is a concept that usually the ego kind of says, "Well, ok.....you know," but there is not a plug-in for it on the emotional level. To explain a little bit about what the one of many feels like, it is when you go through something called soul integration, you will begin to know yourself as one being who has a minimum of twelve incarnations, simultaneously happening, in a lower dimensional field. And because you are above them in consciousness, you will be able to perceive them and you will perceive them through your memory. But they are living in space time co-ordinates in the ever present now.

You will know yourself as that plural consciousness, when you integrate your Over-soul identity. You will know yourself as 144 different beings and each and every one of them are you. They will have different

bodies, they will have different life frame works, they will be in different space time locations, but you start to grow this concept of knowing, "yeah, they are me too. You know, they are *all* me!"

As you go upward in the dimensional scales, we are dealing with a 15-dimensional system that is broken into 5 sets of 3 dimensions that form 5 Harmonic Universes. In each Harmonic Universe you have a station of identity that is bigger than the one before it. We are fragmented down here. It is called Stair Step Creation., which is God-Source individuating itself into the 15-dimensional Time Matrix. (*Evolutionary Path of Human Consciousness*)

The God-Seed

There is a structure to multi-dimensional identity that our psychiatrists here don't know about yet, that our scientists here don't know about yet. It is the place where human consciousness plugs into the consciousness of the cosmos. There is a part of you called the "God-Seed." It is a part of you that can cut through all the nonsense and the red tape between the dimensions you are in here and the dimensions of your highest evolutionary potential. Working with connecting to the God-Seed starts helping you with the ability to connect with the highest mind, your highest mind.² God-Seed is the thing that has your whole pattern as it was, your whole pattern of consciousness, whatever those crystallized geometrical codes were, that original pulse you came in on, your Monad and your God-Seed still hold that pattern.

Every person down here, every person, every planet, everything in manifestation in the dimensions has to go through a God-Seed to get here. They are like your cosmic family of consciousness. It has infinite pieces but all the pieces are really one when they're brought together in the God-Seed. A lot of the exercises we do are geared toward creating what they call the "Pillar of Light." There is a pillar of frequency between you and the frequencies here all the way up through these different levels and different growing gestalts of identity until we get to the God-Seed.

The God-Seed holds your true pattern of consciousness as you originally came out of God. So as a being, in your journeys through time, you ended up with having some distortions in your original pattern. Distortions in consciousness are distortions in Partiki grids. They are distortions in your Morphogenetic Field.

In order to fully expand back to what you were as God, your Morphogenetic Field has to hold the same pattern that it did in expansion. If you have parts of your consciousness that changes its oscillation, it gets distorted in what's called the Diamond Codes of Consciousness and you won't be able to expand; you'll be stuck at your current level.

You can make a conduit of energy between your God-Seed and yourself to begin restructuring those codes and those frequencies. It begins to build a Pillar of Light from the top down by calling it to you. The genetic distortions we have, that are the result of Morphogenetic Field manipulation and direct DNA manipulation from our ancient past, can begin to be corrected soon by using exercises that begin to bring the program of the God-Seed back into your cellular structure.

But for every one of us, no matter how stuck you might have got, in any time zone, in any dimensional system, there is always the eternal God-Seed that holds the pattern in the cellular memory of what we as a gestalt consciousness was. If we can build a path from wherever we are to that God-Seed, if we can ask our higher identity levels to help us because we do have higher stations of identity than just the one right here, it will expedite a process of expansion tremendously.

² See Tangible Structure of the Soul, "Activating the God-Seed."

When we're talking about the God-Seed, we're talking about the primary 24 families that created our cosmos. This doesn't mean there are not other cosmos. It gets very awesome when you get out there in the Mind of God. It's infinite. But for the structures that we need to work with in order to create dimensional Ascension, in order to create our return to full At-One-Ment where we can say "I am God and know myself as everything," this structure is very, very useful to understand. You aim for the God-Seed; that's your ticket home. (*Evolutionary Path of Human Consciousness*)

Realigning Towards Oneness

One of the fastest ways to realign personal evolution toward One-ness, is to bring the dormant energetic component of the Monad and the God-Seed morphogenetic scalar grids within the Earthly body, into life consciousness, thus activating the God-Seed and building the Pillar of Light (Maharata). Such development of the Pillar stimulates all of the 8 Hova Bodies into simultaneous activation. Building the Pillar of Light is achieved by activating the God-Seed.

The Pillar of Light is a morphogenetic construction of scalar grids that appears in the bio-energetic field as a progressively expanding pillar of multi-colored light (hence, 'the rainbow bridge').³ The pillar, which forms from the progressive activation alignment and merger of the 5 higher bodies, is a conduit through which the consciousness of God flows into conscious human embodiment.

The full Pillar of Light is constructed when all 8 higher bodies have been aligned, activated and opened into the Consciousness of the God-Seed. This is called God Realization.

Harmonic Universe 4 which has dimensions 10, 11 and 12, is the highest form you can go into before you turn into non-form. Remember you started as pure consciousness without any illusion of manifest form. You will return to that so it is a process of deep densification that you go through as you expand through your integration of your Hova Bodies.

When you go up to Harmonic 4, you are in what people call "Christ Consciousness". They call it Christ Consciousness simply because there was a being who came here to bring this pattern back into our DNA, because our Hova Bodies are directly connected to the content of our DNA. He brought the pattern back to us because we started to mutate and lost it.⁴ This level of existence is called Unity Consciousness.

You go from being that etheric matter being where it still has some solidity to you; this is something called crystalline liquid light. It is a field of the gestalt consciousness. This is your return home to an awesome state of being and you can embody parts of this while you are here. You can bring parts of this into you while you are here, and get those liquid light infusions of your consciousness but at that point, you have merged the collective body of the beam of consciousness you came in on.

When you came in from the God-Seed levels, you can look at yourself as a big pulse of consciousness that broke itself down into many little pulses. On your way back up, those pulses are recollecting themselves, and reassembling themselves.

There are pulses of consciousness that come through these patterns; there will be pulses from the God Matrix itself that will pulse into the God-Seed, and it's not just once; they continue this constant pulse. So one of you came in on a pulse of consciousness that will have its own particular rhythms. As you expand back upwards, you'll go back out on that same pulse of consciousness. This is the process of Ascension and expansion. (*Masters Templar Stewardship Manual*)

³ In this context, the Rainbow Bridge refers to the Hova Bodies.

⁴ See "The Real Christmas Story."

A Note on the Yunasai

The original place/space/thought that God individuated within itself, it had a thought that it wanted to create individuation and externalization and that thought formed these fields. And these fields in tangible terms can be viewed as massive, elliptical spheres of standing waves of consciousness and from those standing waves a whole process comes into play. Then through this process, the divine mechanics or the divine design that allows for the manifest hologram is created. So, everything is actually taking place within these. God would be everywhere, but this is like a point in the mind of God, if you want to look at it that way. And within that, all of this and all of what was inside of that (remember how we had all of those stair steps going down), all of that is contained within the Yunasai. So when we say **Melchizedek Cloister Emerald Order, Holy Order of the Yunasai**, this is what it refers to—all the way up to the top. (Allentown 2002)

Pillar of Light

One can view evolution as the progressive building of the Pillar of Light that connects one, through the fields of time, and the hierarchy of identity, directly to the Heart and Mind of God. Activating the God-Seed begins to build the Pillar of Light, from the top down—from the God-Seed down to the Incarnate, progressively aligning the geometrical constructs of the Monad's magnetic field with its original design within the God Mind.

As the 8 higher bodies in the Monad's scalar grid progressively align and merge with each other, the Pillar of Light progressively descends toward the Incarnate, eventually encompassing the Incarnate's body and consciousness within the hierarchy of identity. The process of remerging the personal identity with the Pillar of Light has been referred to as "entering the fold," through which the Incarnate awakens to its direct connection to the God Mind, ultimately expanding to know itself as a limitless expression of God.

Melchizedek Cloister Emerald Order (MCEO)

The Melchizedek God-Seed

Of the 24 God-Seeds, only one God-Seed is responsible for the multi-galactic human lineage. The original human lineage was manifest upon 12 Monads, or Cosmic Families, and each of the 12 Monads manifested 12 Seeds of Consciousness or Universal Families within the Energy and Time Matrices.

All the dimensional and cosmic families of human consciousness manifested through one common God-Seed. This common God family consciousness gestalt goes by the name of Melchizedek. In the multi-dimensional scheme of galactic creation, the God Mind also manifests cosmic family lines through the 23 other God-Seeds. Many, other, ancient, interstellar races that entered the Time Matrix prior to the time of the human family consciousness, have as their God-Seed a Monadic identity other than the Melchizedek Collective.

Through the course of interstellar history, numerous families of both the Melchizedek lineage and other God-Seed lines, encountered difficulties within their Monadic Imprint and found themselves unable to retain their connection to the Pillar of Light. Distortions within the geometrical structures of their Morphogenetic Fields rendered their bodies unable to merge – a condition that keeps the consciousness trapped in time, unable to achieve full expansion to At-One-Ment with God.

Of the 24 God-Seeds, the Melchizedek God-Seed is one of the few that has kept the Pillar of Light unbroken through a majority of their family lines. The Melchizedek (Cloister) Collective has thus become known as the Keeper of the Codes and Guardians of the Path of Ascension for all Races within the Time Matrix. The human Turaneusiam lineage is one of the manifestations of the Melchizedek God-Seed, and it was created to function as a vessel through which the interstellar races, trapped in time, could re-evolve into At-One-Ment with the God Mind.

Most of the beings now incarnate in human form did not begin their journey into time with the human imprint. Most present day humans were originally a consciousness that manifested in other-than-human form, emerging out of one of the other 23 God-Seed families. In the beginning of human creation these other families of consciousness were spliced into the human, genetic, morphogenetic lines so that they could re-evolve through the Melchizedek God-Seed. This process of splicing one family of consciousness into another Morphogenetic Field is called a "Host Matrix Transplant." The Melchizedek God-Seed has served as a Host Matrix for the ascension of many interstellar races.

Most humans possess other-than-human reincarnational memories, but in their subconscious minds. And many of these other-than-human races were not originally a part of the Melchizedek God-Seed families. Within the Melchizedek Monads of Cosmic family lines there are two primary branches: one, created by gene splicing another racial origin with the Melchizedek; the other a gestalt of the original families that emerged directly from the Melchizedek God-Seed. These original family lines of the Melchizedek God-Seed are referred to as the Melchizedek Cloister.

When an Earth Incarnate begins activating the God-Seed, it calls into manifestation (within its genetic code in consciousness) the scalar grids of its Monad, or Cosmic family, or God-Seed, upon which its family originally manifested. It begins to build the Pillar of Light to its Self, from its respective God-Seed. If the consciousness of the Incarnate happens to be of the interstellar races that encountered distortions in their higher bodies, which manifests in the biological genetic code, these areas of morphogenetic distortion will create blockages or blank spots in frequency within the Pillar of Light descending from the God-Seed. Such blockages can occupy many incarnational cycles to correct, and it is quite difficult to do so from the Incarnate's level of awareness.

Activating the God-Seed in cases of Monad distortion is still desirable, but it is incomplete in terms of fulfilling ascension into At-One-Ment with the God-Mind. Because it is difficult from the Earth human perspective to determine the level of higher body distortion (and to identify the original God-Seed Family Tree), the practice of Melchizedek Cloister Ordination (MCO) accomplishes activation of all the original God-Seed, but also serves to splice the Incarnate's consciousness and 8 higher bodies into the Melchizedek Cloister God-Seed, thus helping assist the Incarnate in building the Pillar of Light.

The God-Seed Melchizedek then serves to realign any blockages in the Pillar of Light, holding the integrity of the higher bodies intact until all distortions can be realigned with the Monad of the original God-Seed identity. (*Masters Templar Stewardship Manual*)

The Cloister Melchizedeks

It is important to understand what the name Melchizedek means. If you look on the internet there is a huge amount of Melchizedek information available. The interesting thing is you never know which side you're on, because the name has been misrepresented in some circles. There are good ones, there are ones that are between, and there are ones that are not so good.

There are the Melchizedeks⁵ and the Cloister Melchizedeks which is the family of Melchizedeks that many of us come out of. The Cloister Melchizedeks are sticklers for detail, and this tends to annoy the other families of Melchizedeks. For the Cloister Melchizedeks, if something was supposed to be done a certain way, that is the way it was supposed to be done. We taught that God was beyond gender. Therefore, we don't want others teaching people that God is male and a big guy sitting on a throne. That is destructive. This is the difference between a regular Melchizedek family member and a Cloister family Melchizedek. Those subtle differences are important to a developing consciousness.

The teachings are distorted. If you look around for the definition of Melchizedek priesthood, what are they? The information you find is that it is a patriarchal organization. They do not look at women as equal; they do not look at God as having a female character. This means they are going to deny their own emotional nature and are going to be really rigid, without much feeling for the Earth either. They deny the feminine quality. This is not the Cloister Melchizedek teaching. This is some of our prodigal children in the other families. And that is O.K. They have their place. Because there are people out here that will not listen to somebody who talks like this. "What do you mean that men aren't better than women?" That is where they are coming from. They need to have a patriarchal structure to tell them, "Yes it is fine to be your elitist, chauvinist self. Go ahead!" At least we will get you hooked up with God.

Some of them aren't so innocently using distortions. Some of them purposely use them. There was a whole line of Melchizedeks that came through from a harmonic race in HU-3. They were called the Elohim, and they had some real different ideas about how human consciousness should evolve down here. Some were like overprotective parents that didn't want you to give too much at one time and keep them dependent. Others wanted to give them it all so that they could do it and others said they should just self-terminate. So there were certain families, even in the Melchizedek line that fell from grace. Some of them even went into Monadic Reversal. But of all of the 24 God-Seeds that exist within the God Source out of which all these cosmic families are created, there are about 3 that have managed to maintain about 80% of their families in clear codes. The Cloister Melchizedeks are one of them.

Melchizedek is a God-Seed. That is the name of the tonal resonance, the vibrational pattern that translates into a word here of one of the God-Seeds in the Source matrix. It is the God-Seed that the human design was created through. So, Melchizedek would be the name and the vibration; and the vibration is more important than the outer sound. It is the vibration of that energy that would serve for the collective human race, wherever it is, throughout the Galaxy. That was the original large beam of consciousness that it came in on.

The Melchizedek's beam of consciousness and the Melchizedek God-Seed are also one of what we call the Prima God-Seeds. The Prima God-Seeds have more energy than the others. And God-Seeds, just like everything else it seems in this Universe anyway, go in sets of 12. There are 24 of them. Two sets of 12. You can look at them like a circular clock, with the 12 on the top and the 6 on the bottom, 3 to the right and the 9 over to the left. Those positions are important in any of the line-ups going down from the God-Seed, because there are 4 primary positions in a clock of 12 that are the ones that have more power, more of the full codes of whatever matrix it is and more of the consciousness and more of the identity.

The 12 and the 6 positions are equal and they hold the energy imprint that is stronger than all of the others. If you put all of the others together, they would create the 6 and the 12. And when the 6 and the 12 are put together they would represent the whole clock. The whole clock, not just on the God-Seed level, because your soul works the same way. Your Soul has 12 Incarnates, or sets of 12 Incarnates. Four of the positions would be the primary power holders and probably most of the people in this room are either in the 12 position or the 6 position or the 3 or 9 position, or they wouldn't be at a level of awareness where they'd

⁵ These are Melchizedek groups without the Cloister name attached.

even be listening to something like this. But the God-Seed Melchizedek is the 12 position, which means it holds the codes of all the rest. So it is able to connect to all of the others that came out of that whole family of consciousness, that whole God-Seed. It can redirect their codes in the matrix if they get lost. This is why there is something called the Melchizedek Priesthood.

The priesthood is multidimensional. It comes all the way down through every level of identity. There is the Cosmic level, the Universal level, and the Galactic level. There is also a gene code here that goes with the Melchizedeks. It is a gene code that is what is considered a Cloister race. Cloister races go back into the root races of consciousness, out of which we were seeded.⁶

Melchizedek is a Cloister race. It carries certain amounts of the Silicate Matrix 12-Strand DNA gene code in its Morphogenetic Field and in its gene code itself. We all have some portion of it, but right now, in the time frame we are in, most of the race has 4th strand present at birth. And the process of the lifetimes now would be evolving the 4th strand. Melchizedeks have the 5th strand present, but because they are a Cloister race they contain the imprints of Strands 7 through 12 that can be activated once their main strand is activated. Each strand in the DNA corresponds to a dimension or level of consciousness. That means they are able to pull in more than the average person in this race cycle right now. There are ones above Melchizedek race strains too. There are the Indigos. They call them the Indigos, the Paradisians, who are born with 6th strand activated. That means they can bring in 6th dimensional consciousness at birth, which is full Soul integration, which is full Alpha Hova body merger.

So these things are all connected together. If you want to understand and see these connections, the writing is the key. When you see the writing and you see the diagrams and you see how they go together, it goes right down to the DNA, it goes all the way up and all the way down; everything is accounted for.

The Melchizedeks are not a cult. They are a race line. They just happen to have these gene codes and happen to be from these matrices, but so are all ultimately. The human design was designed through the Melchizedek God-Seed. So when we go to our God-Seed as a collective, the God-Seed we visit in the techniques available, that is the God-Seed Melchizedek.⁷

There is a lot of E.T. consciousness walking around in human bodies right now. They had agreements to evolve through the human form because their own race line lost some of their codes. This way they could get their codes up enough where they could incarnate in human form and then finish their evolution. That was what the human form was really designed for, to rescue all the other ones that were getting stuck in the matrix. But we each have a very personal connection to our God-Seed. If you are in a human imprint, even if you didn't start out that way, your God-Seed is the same God-Seed, because we are all in the human imprint. (*Evolutionary Path of Human Consciousness*)

Melchizedek Hosting

Not all of us came in originally through the Melchizedek line. If you happen to be from some of the stellar races and you are an E.T. walking around in a human body, which means you would have more E.T. memory, you would have other forms rather than human forms in your primary incarnational memory base. You might have come in from one of the other 24 God-Seeds, but because the Melchizedek God-Seed is the number 12, it holds the codes of all the rest. So, you can evolve right back through it and it will take

you right back to your own God-Seed. So you can look at it as kind of like the head God-Seed. I don't know what some of the other Melchizedeks are teaching. Some are good, but some are very rigid. Some of them mean well; some of them are being distorted. You can't spend the rest of your life trying to see which guys are still with the light and which ones have been compromised. But by learning the techniques that we give, you can start making the differentiations yourself.

When you go to the God-Seed, you don't have to use the name Melchizedek. It is not going to change the fact that Melchizedek is the God-Seed you are going to connect with. But that is the one that is going to get you back if your codes are compromised on any level, which if you are in a human body down here right now, they probably are. Even the Speakers' codes are. There are miasmatic patterns and karmic grids in here that have to be shifted for any of us to do the same things we would like to do, which is full Hova body integration.

You don't have to be afraid of the Melchizedek name as if you are getting involved in a cult or anything like that. It isn't like that. We offer the Melchizedek ordinations. The word "ordination" originated with the Melchizedeks, and then other religions took our information and distorted it. (*Evolutionary Path of Human Consciousness*)

What the MCEO Teaches

A'sha-yana Deane went through something called a Melchizedek ordination. The Guardian Alliance works under something called the Melchizedek Cloister, which is not the same as the Melchizedek Priesthood. It's the governing body of the Melchizedek Priesthood. This is a multidimensional spiritual organization, an organization of spiritual scientists.

A'sha-yana received her spiritual initiation, as well as her scientific training from the Guardian Alliance, and also something called the Azurite Council of the Ra Confederacy. This is a group of beings that qualifies as ultraterrestrial. It means they are beyond form manifestation. They exist in reality fields that are no longer dimensionalized like ours. When you don't have dimensionalized reality fields, all you have is pure sentient consciousness in wave form, conscious radiation. (*Secrets of Amenti*)

The ancient MCEO perspectives teach of the Inner Christos, or living God-spirit alive within all things, including the natural environment. "Inner Christos" philosophies are built upon the understanding of what is referred to as the "Law of One." Inner Christos Law of One perspective respectfully acknowledges the interconnection, interdependence and intrinsic value of all components of reality in recognition that the Living Consciousness, "God-Spirit" or "Inner Christos" is the tangible substance of consciousness and energy from and of which all things manifest are composed.

MCEO teachings offer people an opportunity for advancing personal empowerment through genuine spiritual development regardless of their religious affiliation. The "Inner Christos" of the "Law of One" MCEO spiritual teachings belong to everyone of every creed, not just those who choose to call themselves "Christians." The word "Christos" (from which the word "Christian" later emerged) was originally spelled "Kristos" in the most ancient texts, and referred to the personal Divine Blueprint of Conscious Living God-Spirit energy of which all things and beings manifest are made.

At the center of contemporary MCEO teaching programs lies an "Ancient Mystery" known as the "CDT-Plates." The books and course programs produced by the MCEO are not speculative, nor theoretical in nature, but are rather derived from factual text books. Contemporary MCEO teaching programs contain English language translations of materials already existing within a very ancient set of texts called the Maharata Texts (indirectly related to the Indian "Mahabharata" writings). The 560 books of the ancient

Maharata Texts are the original translations of an even older set of ancient records that have survived to our present time, stored on a set of 12 digital holographic recorder discs called the "Cloister-Dora-Teura Plates" or "CDT-Plates," that were manufactured in 246,000BC. The CDT-Plates and Maharata Texts have been translated into written form numerous times in our ancient history, in many different countries and languages.

The CDT-Plates are real, physical objects that have been kept in the private, protective custody of a specific family line of "Indigo Children" on Earth since the 9558BC "Fall of Atlantis." This family line is called the Eieyani, who refer to themselves as the Melchizedek Cloister Emerald Order (MCEO) Priests of UR. Another branch of the Eieyani family calls themselves the MCEO Priests of MU'a (MU). The word "priest" originally meant "guardian" or "steward and administrator of spiritual wisdom." Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as "Priests" or "Ministers."

The MCEO has always been, and will always be, an egalitarian, non-hierarchical non-gender-biased spiritual service collective. (*Kathara Levels 2-3 HB*)

What Are Ordinations?

Melchizedek Ordinations are Morphogenetic Field transmissions. They are a bio-field transmission from somebody who has the strand templates to receive them. This gives you the template to begin working with the bio-regenesis techniques. (*Architects of Light and Entering the 5th World*)

An ordination is a contract bond, which is a bonding contract, a field bonding between you down here and your Rishi up there. They were originally done so that people here who had the misfortune of coming out of one of the reversed matrices, one of the Illuminati, could by-pass their matrix and get a link to a Rishi and get their Ascension codes back. It is called a Host Matrix transplant. They'll transplant you into a Light Matrix. If you are aware enough here to ask for that alignment, you will be able to help the rest of your matrix that got reversed once you get out there. So it is an energy thing that happens. It is not like you get ordained and now you get to walk around and say, "I'm a Melchizedek whatever." It is not about the title. It really never was. Some of the religions and things got really twisted with that where they forgot why the title is there in the first place and they just got hung up on the title and the ego trip that goes with it. It is not about titles and ego trips. (*Evolutionary Path of Human Consciousness*)

Ordinations are about energies, about frequencies. A true ordained Melchizedek minister has a field bond with the Rishi in Harmonic Universe 5 (HU-5). The Rishi will sustain a Pillar of Light between you and HU-5 that you can't quite build yet, that you can align your Hova Bodies in. It will also help to clear the miasmatic imprint. We deal with the Rishi a lot in working with the Melchizedeks. When you work with that level of consciousness, it helps you build your Pillar of Light. It also helps to protect you.

The Solar Rishi are the levels of you. For every one of us that came in on our pulse of consciousness, there is a level of our gestalt consciousness that vibrates to the 5th Harmonic Universe which is Dimensions 13, 14 and 15. It is an ante-matter, the ante-matter, not anti, ante-matter wave form radiation consciousness, just pure Ascension consciousness wave form. When we see them (if you could see them, and sometimes you do because they sometimes will get your attention and manifest here as light beings), you are seeing part of your family, part of your own cosmic family. (*Evolutionary Path of Human Consciousness*)

Rishi are a wave form. When they manifest to us, they tend to look like these real tall light beings with elongated heads and they emanate light so strongly you can hardly see the details. So the Rishi are presences and they're very real. They're at the meta-terrestrial levels, the highest levels within our Time

Matrix. Not Ultra-terrestrial, which would be in the energy matrix. They are helping with evolution of beings in different star systems. You can use the Amoraea Contact Platform technique⁸ and use that platform to meet your Rishi. The Melchizedek Rishis we work with, they're out of the Melchizedek Cloister Family, and they're a family of consciousness. A'sha works out of the Azurite Council of the Ra Confederacy, which is one of the Cloister Families in the Melchizedek Family—and most of the Rishis that are involved in the work here are part of that Cloister. (A'sha, *Ancient Rites of Passage*)

From this platform you can clear space, you can work on healing and you can reach Rishis in that space. You can also simply request them. By being in an Azurite Press workshop room, everybody's energy field is affecting everybody else's. So the Rishi who are connected to A'sha's energy field are touching your energy fields through hers. Because of that, they're aware of you. So if you decide you want contact or want help in opening to Rishi communication, that request will be heard. The Speakers' fields serve as a conduit. (A'sha, *Ancient Rites of Passage*)

In an Azurite Press workshop the Rishi become aware of you and get to know your signature. So if you want Rishi communication, they will hear that, it will be a form of energy sent back—it's not words. They will work with your higher identity levels to know what's next and appropriate for you so you don't need anybody to find your Rishi—and you don't need a Speaker to get hooked up with your Rishi—but sometimes it can help. (A'sha, *Ancient Rites of Passage*)

In light matrices, you have the Christed Avatars; they create Over-Souls, sets of them, series of them, families of them. The Over-Souls create families of Souls. The Souls create families of Incarnates down here, family lines, genetic lines. They run directly into the Christed matrices. The Anti-Christed ones do that too.

There are people here, and some may be people you know among us, that have been born through those matrices. They have the codes of the reversed matrix Avatars. Most of us don't know what we are connected to because this information has been denied to us for so long because they've made it so we can't pull in enough frequency through our gene code to find out that information. Even if one is part of those matrices, it's OK, because all you need to do is make a Rishi connection. That's the whole problem with the Anti-Christos matrix – it's severed the connection between the Avatar and Rishi Levels of Identity. The solution to healing that pattern is to simply connect with the Rishi.

Each of your Hova bodies is a pattern of frequency, a dimensionalized pattern of frequency that you are progressively integrating into your body, which integrates into your DNA and progressively activates DNA strands in a 12-Strand matrix. It may take you many, many cycles in the Time Matrix depending on your codes. Most people haven't a clue where that is either and there isn't time to figure it out anymore. You don't know where your codes are, you don't know how many cycles it is going to take you to get your Hova bodies aligned. If you want the fast way to do it, you make a link with the Rishi. You let that Rishi bond with your energetic field. It's not going to control you. They are not interested in controlling people. Anybody who has control of themselves doesn't need to control anybody else, but what they do is sustain a high frequency field for you. They sustain a Pillar of Light between you and HU-5 that you can't quite build yet, until you cycle enough to get your Hova bodies aligned. They will hold that Pillar of Light for you so you can align your Hova bodies, which will accelerate the process of Hova body alignment. They will also help to release the miasmatic imprint. They will work with you to clear the karmic imprint as fast as possible without throwing your system into chaos, because, if you try to process too fast, you can really wear yourself out. (*Evolutionary Path of Human Consciousness*)

By linking with Rishis, if you happen to be in one of those matrices, it will get you clear so that your path of evolution will no longer be being impulsed by something you wouldn't want to serve. Even if you are not

⁸ Technique 15 of the "Dance For" Flame Body Activation Techniques

part of them, it will accelerate your process of integration anyway. So it is good for you either way.

Ordinations and Merkaba Activation

Ordinations help you link with your Rishi level, and bringing that pillar of energy down assists in Merkaba Field Activation. There is a level of the Merkaba Vehicle that is built every time you integrate one of the Hova Body shields. When you link in with a Rishi, it gives a conduit of energy that helps that Merkaba Vehicle to build faster. You can look at it as a Pillar of Light that the Merkaba Vehicle would rotate around, or rotate on and that is what you're building first. And then working with the other exercises would begin those counter-rotating fields moving through it.⁹ So it's a part of the same process. All of those processes are very interwoven with the integration of the Hova Bodies, and that's the easiest way to understand any of it. So, they're all the shields when you look at them as shields--the little disks, those Hova Bodies. You have 5, and if you bring them into alignment it accomplishes the rest, without having to worry about rotations of spin and how fast it's going, and all this kind of stuff. Your cellular memory knows how to do that, once you trigger it the right way. Even thinking the word "Merkaba" will help create your Merkaba Vehicle.

You have the 3 matrices. The Rishi is the key, no matter what matrix you're from. The Rishi level of your own identity still exists out there; even if you were from a Black Sun matrix, that Rishi still misses you. It would still like you back. So it will definitely be willing to work with you, reestablish the connection and clear any codes that were reversed. So the Rishis are parts of you that you can reach for, and that you can carry with you. And Melchizedek Ordination will help this process. (*Evolutionary Path of Human Consciousness*)

Energy Process

The ordinations are an *energy* process. When you link with the Rishi (the Rishi have the full 15-dimensional codes), you become a vessel.¹⁰ And once you are ordained to certain levels, you can transmit 12th-dimensional frequency to other people. It will activate, at least temporarily, all of the Hova Bodies, and bring them into activation along with your 12-Strand Matrix. They won't hold it all at once because if you haven't gotten there naturally, your body won't tolerate it. But they are able to burst through you enough where you can activate the fields of other people, and begin the Hova Body activation process in others. That's what ordinations and initiations do.

We are transmitting frequency to persons receiving it--frequency that will help them to build their Pillar of Light, frequency that will help people give themselves protection from what's going on here energetically. This used to be a mystical thing, where only people that had very devout lives were ever allowed to know any of the secrets of the Melchizedeks. This was not available to just anyone; people worked for years and years in spiritual schools just to get to the point where they were allowed to have this knowledge.

At this point the opportunity for having a bond with a Rishi is being offered to everybody. They know people need protection here, and the Rishi want to see us get free. They want to see us evolve to our potential. And a lot of the Rishi that are the most behind wanting this whole thing fixed are the ones who had matrices with the Illuminati (their little rebellious children here). They're endorsing the program better than anyone because the Rishis were never corrupted on that level. It was the decision on the Avatar level to reverse their matrices. So the Illuminati Rishi are trying to help their members home and get them healed, and get them aligned. So they ordain them too, because once you get the field bond it will start to purge out things that are not harmonic in your field.

If you went under Monadic Reversal, it will begin the process of bringing back the codes to their original place. If you are born in a matrix that is an Illuminati matrix and you don't know it, you won't be able to have those codes reversed while you're in the body this time: the body can't tolerate the stress. But as soon as you have your natural end to this lifetime, you will be able to go into a full Rishi bond and get plugged into the Melchizedek God-Seed. So no matter who you are, they're really helpful. (Evolutionary Path of Human Consciousness)

Initiation, Ordination, and the Heroic Probability

Initiation means you get the codes and it starts to stimulate the activation of the Hova Bodies. It starts to stimulate the DNA activation, but it's not as much of a commitment; you don't get a Rishi fused to your DNA. You don't have to listen to your Rishi. It's not like you have a big Rishi over your head that tells you what to do. It's not like that at all. But, it means you have to be fully committed to being on the Path of what's called your **Heroic Probability**; that was the original path that you came in on. That's the only path that has a high enough vibration in your body pattern to keep a bond with a Rishi, to sustain and hold that bond energetically.

If you go off the Path of your Heroic Probability, then you will get advised not to. The Rishi is giving higher frequency into your field; it's giving you a jump start on what you normally can do. If you step off the path, all of a sudden your vibration drops really fast, and so does the connection with your Rishi, but you still have lots of extra energy flying around your system that you wouldn't have had in there if you hadn't had Rishi assistance. So it gives you a lot more frequency to process and it can be very difficult to process that. It is like errant frequency running through the emotional body and mental body.

With the Rishi bonds, the only negative you could say that's attached to it is if you break the bond, you're going to have more frequency in your field to process. Those frequencies, coupled with the frequencies that are going to be coming through the Earth grid in the next 20 years, would be very difficult to process while staying at least emotionally centered. So before you make a decision, think about, "Is spirituality important enough to me, to really do this?" Because this is real; we're not kidding.

A person who accepts ordination would be someone who's ready to connect to their own Heroic Probability: "What I came here to do; what my God-Seed wanted me to do; what my Soul wanted me to do, rather than just what the ego thinks is right." They're willing to open the lines of communication, so they can start to hear the Higher Self while it is talking to them. They're guided, and if you're having a problem or an issue, that's where you turn for counsel. You learn to go inward. There's nobody out here that's qualified to counsel you and to guide you, as what you'll ultimately find within yourself when you learn to open doors.

There are energy transmissions that are given in this. You need to be aware that you can still do what you want out here, but you do it in a way that you've got to say "Okay Rishi Self, raise this to the level you want it. Point me where I should be in my Divine Right Order." You assume this path of your Divine Right Order in any moment.

The Path of Divine Right Order is ideally what you should be doing with yourself that would contribute to your greatest joy and development and everyone else's around you. You aim for that, that **Heroic Probability**, which is **your alignment with the God-Source**. If you do that and you're committed to that, and you take it seriously, you're not going to have a problem with the Ordination; you're not going to have a problem with the Rishi bond.

You'll only have a problem if you're one of those people that say: "Hey I'll try this," and then you kind of throw it away or put it in a drawer and it doesn't mean anything to you; and then you just don't try and develop inner guidance. You really don't look inwards so you don't know if you're on the Heroic Path or not.

You're not going to know if your frequency is going up or down, or what it's doing. That's the only time I would say "Think about it first."

You don't want extra energy flying through there if you're not seriously committed to synthesizing that energy so you are still functional. And, if you're ready, you'll know it, you'll feel it. And if you're not, that's okay too: that's what Initiations are for. That's where you just get the codes transmitted and you begin to have your process activated.

You will also be assigned a Rishi name: the one that's working with you. But Initiations don't have the same protection levels involved as Ordinations. They don't have the same acceleration levels involved, but it's a beginning. So you might want to do the Initiation instead if you're a little squeamish about whether you're going to be able to really stay in your Heroic Probability and not crash your DNA by falling out of your bond with the Rishi.

You don't have to have either. You can just work with your own God-Seed, and leave it at that, but the program works; each step you take, it's amplified. It will give you more focus, more strength, more clarity, faster than any one step alone. And that's why it's a program; it's put together that way. (*Evolutionary Path of Human Consciousness*)

A Promise Between You and Yourself

Ordination is not being zapped into a cult. It's our assistance with your Avatar, where it shoots a bit of frequency down through our field, because we're already activated, and we ground a spark of your Avatar's energy and then transmit it back to you to help activate your shield faster. That is a Melchizedek Cloister Ordination. At Level-3 Ordination, you take a promise or a vow to your own Kristos Self, not to any mumbo-jumbo name in the sky, not to us, not to Azurite Press or the Eieyani or anything. It's a promise you make between you and your Self.

Ordination is a way to expedite the activation of your template on a Base-12 Imprint. What we do is simply receive a spark of D-12 frequency from your own Kristos—not somebody else's, not some unnamed Kristos in the sky, but your particular Avatar level of consciousness consciously sends a spark. And if you're not ready for it, the Avatar will say, "No, not now." Then we'll say, "Sorry, why don't you go meditate and talk to your Avatar because it doesn't want me to do it."

It's good to know the difference and know what we mean when we say "Ordination." If you want to, you can become a Melchizedek Cloister Minister. There are Level 1 Ministers, Level 2 RaB'nai, and Level 3 Regents, which is really what everybody tends to aim for. It's the path of full 12-Strand activation, of full Avatar integration. That's completely between you and your Avatar selves. We're just here to be in service to anybody that wants that, and there is no commitment to us whatsoever or strings attached—including strings you can't see. However, there needs to be a little time: 12 to 24 hours after completing Levels 1 and 2 before you go on to Level 3. (*A'sha, Peru 2001*)

The purposes of the ordinations are threefold. First of all, there is a DNA/Indigo activation (bio-regenesis acceleration) which is associated with each of the 3 levels of ordination.¹¹ This gives a frequency transmission to your fields. Secondly, to pledge a personal oath of increased Spiritual Integration and consciousness development associated with the Contract Levels (Soul, Oversoul and Avatar - personal,

¹¹ Ordination levels have nothing to do with a hierarchy. They just denote a frequency activation level and/or frequency holding capacity/capability.

planetary & galactic). Finally, to express active willingness to be of similar service to others (ordaining 1 level below ones own, as well as performing Baptismal and Marital Service). (Mac, 23 Sep 01)

The purpose of doing the ordination is to get a frequency transmission to your fields.¹² This is a service to your Avatar level. When someone has certain levels activated in their DNA template, it means they can transmit those frequencies. Your Avatar level can transmit frequencies. But there's a whole lot of dormant stuff in your DNA that makes it very difficult for that frequency to make it all the way down to your 3rd DNA strand, your 3 strands, the D-1, D-2, and D-3 strands which belong to your body down here.

During the process of Melchizedek Cloister Ordinations, the Priest¹³ who gives the ordination is simply serving as an anchoring rod where your Avatar level sends a spark of D-12 down, it gets grounded by the person who already has it activated in their fields, and they simply transmit it back to you. So it's like your Avatar can cut out all that middle muck stuff that makes it hard to activate you. If it could activate you a bit faster, you'd be a fully awake Avatar. So, it's simply a courtesy, a service, a very sacred service. We never charge for those. It's our service to you as Avatars.

It also helps you to run current faster. The reason they provided us with the Cloister Ordination Program now is so we can help people wake up as fast as possible. Because when you get those transmissions of frequency, it triggers an accelerated activation in your own kundalini and DNA template, which allows your own Avatar to take that frequency and run higher and faster. (A'sha, Peru 2001)

There is an inherent service orientation (and humility) in approaching Cloister Ordinations, quite unlike all the "other" Melchizedek ordinations. We are not concerned with rights and privilege. We teach - and represent - equality and unity, with reverence and respect for ALL forms of life, everywhere. (Mac, 23 Sep 01)

Levels of Ordination in the Melchizedek Cloister

Initiate

One who has been born with or accepted transmission (Melchizedek Initiation) of the morphogenetic field imprint of the full 12-Strand DNA Silicate Matrix and has entered the path of ascension through the Melchizedek Priesthood of the Melchizedek Cloister. (Allentown) Initiation means you get the codes and it starts to stimulate the activation of the Hova Bodies and it starts to stimulate DNA activation. (Evolutionary Path of Human Consciousness)

Level 1-Minister

One who has accepted Ordination through the Melchizedek Priesthood or Melchizedek Cloister, by which the Rishi level of personal identity is partially bonded to and activated within the DNA, to begin the process of activating DNA Strands 4-6 for the process of Alphi-Hova Body merger and Soul Integration, through which the Soul Awareness embodies within the physical body.

Level 2-RaB'nai

¹² Ordination levels have nothing to do with a hierarchy. They denote a frequency activation level and/or frequency holding capacity/capability.

¹³ Priest originally meant Steward of Spiritual Wisdom.

Genuine Melchizedek Ordinations can be performed only by 2nd-6th Degree Ordinate Ministers. After achieving 2nd-Degree Ordination, a Cloister Minister can ordain only the Degrees below their position. This "hierarchy" of Ordination is not a value judgement placed upon an individual by the Azurite Press. Ordination Degrees correspond to the DNA Template activation level of the Minister, which determines the level of interdimensional scalar-wave frequency the Minister is able to embody and transmit through the bio-energetic field to create DNA Template realignment and activation in others.

Melchizedek Cloister Ordinations can be conducted individually or in large groups of people, depending upon the frequency-transmitting capacity of the Ordaining Minister's DNA Template. Azurite Press of the Melchizedek Cloister is presently the only surface Earth organization authorized by the Emerald Order Melchizedek Cloister Priests of UR to offer the Ordinate-Degree System. This is not due to favoritism or discrimination toward other groups, but rather due to the Incarnational Cloister Soul Contracts held by the Indigo Children Founding Ministers of this organization.

Consummate Azurite Ministers are able to transmit the frequencies of the *Emerald Order Yanas Codes* (specialized DNA Template scalar-wave forms corresponding to the Inner Earth Amenti Priests of UR), through which others can acquire these codes for entry into the accelerated Ordinate-Degree System. This allows Azurite Ministers to go forth and transmit Ordinations for others. Anyone can enter the Melchizedek Cloister Ordinate-Degree System, to simultaneously receive the Initiate-Degree and the beginning of the Ordinate-Degree frequency transmissions for expedited, accelerated Bio-Spiritual Actualization.

Ordinations are always free of charge and available to anyone who desires them. Ordination is a promise shared between an individual, their Inner Christos and God; a private relationship not regulated or directed by the Azurite Press organization. (*Masters Templar Stewardship Manual*)

Cloister Melchizedeks versus Templar Melchizedeks

One Melchizedek Cloister Ordination level contains 12 Melchizedek Initiation levels. Contemporary "Melchizedek Ordinations" offered by the patriarchal Templar Melchizedeks, also known as Anunnaki-agenda Melchizedek Priests, represent Level-1 Ordination only, and do not transmit the frequencies for full 12-Strand activation as the Templar Melchizedeks' DNA Templates cannot activate beyond Strand-11.

Only Melchizedek Cloister Level-4 Consummate through Level-6 Eckar Ordinate Ministers can transmit the full 12-Code Frequencies for genuine accelerated 12-Strand activation. Presently the Azurite Temple Melchizedek Cloister is the only physical organization on surface Earth that is not of Templar Melchizedek-Anunnaki descent.

The Melchizedek Cloister is the Order of the Yunasai, the non-patriarchal Yanas Melchizedek Cloister from the Primal Sound Fields beyond the 15-Dimensional Time Matrix. The Alpha-Omega Templar Melchizedek Order is that of the Anunnaki Priesthood, which is intended to work under direction of the D-13 "Great White Brotherhood" true YHWH Host Matrix, with the primary purpose of assisting in DNA Template Bio-Regeneration of Anunnaki and Human-Anunnaki hybrid race strains.

When the Alpha-Omega Templar Melchizedek Order is honoring their originally stated commitment to the Founder's Emerald Covenant agreement, as they sometimes do, they work cooperatively with the Azurite Melchizedek Cloister, the Density-5 Breanoua Orders and the Yanas Melchizedek Cloister Order of the Yunasai Ascended Masters collectives from beyond the Time Matrix.

When honoring the Emerald Covenant Christos Agenda, the Alpha-Omega Order promotes the Founder's egalitarian Maharata teachings of the Inner Christos. When the Alpha-Omega Order Anunnaki Templar

Melchizedek Priesthood is working cooperatively with the Founders and the Yanas Ascended Masters from beyond the Time Matrix, they acknowledge, validate and work cooperatively with the Yanas' Melchizedek Cloister Order of the Yunasai and its Azurite Melchizedek Cloister representatives.

When the Alpha-Omega order breaks their Emerald Covenant commitments in favor of supporting the Fallen Anu-Elohim Anti-Christos Agenda, as historically they have repeatedly done, they misuse the Melchizedek Initiate System as a tool for covert manipulation of humans.

Alpha-Omega Anunnaki misuse of the Melchizedek Initiate System is characterized by transmissions of frequencies that expedite reverse-sequence activation of 11 Strands of the DNA Template, while simultaneously transmitting frequency implants that block 12th-Strand and higher activation.

Reverse-sequence 11-Strand activation progressively and intentionally breaks the electromagnetic connection between the DNA Template and the personal Monadic Imprint that holds the personal D-12 Maharic Shield Christos Divine Blueprint. This practice, called Monadic Reversal, is used to trick humans into subliminally serving the Fallen Anu-Elohim infiltration of the DNA Template and consciousness.

Progressively the Fallen Anu-Elohim present themselves as the false inner voice of "spiritual guidance," while "jamming the internal circuits" for hearing the genuine "Still Small Voice Within" of the natural personal Internal Christos. If an individual's DNA Template coding or life status is valuable to the Fallen Anu-Elohim agenda, Monadic Reversal will be used to orchestrate full Essence Displacement, or "possession" of the physical body by Fallen Anu-Elohim consciousness.

Through subtle personal contact or by receiving Melchizedek Monadic-Reversal Ordination from other Melchizedeks, many well-meaning humans are tricked into unknowingly serving as Anunnaki Templar Priests, inadvertently passing on the codes of Monadic Reversal to all whom they ordain or initiate. The Fallen Seraphim D-10 Drakonians also use the Monadic Reversal tactic, but due to their more limited 10-Strand DNA Template capacity, they are far less skilled in misusing the Melchizedek Initiate System.

Unless full Monadic Reversal and possession have occurred, frequent use of the Founders' Temporary Maharic Seal Bio-Regenesis Technique will progressively reverse and heal the effects of Monadic Reversal, restoring the integrity of the personal D-12 Maharata Internal Christos Divine Blueprint.

Restoration of the personal Divine Blueprint returns the activation sequence of the DNA Template to its organic order. The misfortune of inadvertently receiving a Melchizedek Monadic-Reversal ordination or initiation can be used to personal advantage with employment of DNA Template Bio-Regenesis technology. The Temporary Maharic Seal will progressively restore the natural activation sequence of the Internal Christos Blueprint to the DNA Template, while the strands retain the level of frequency initiation they originally received. *(Masters Templar Stewardship Manual)*

When covertly running the Fallen Anu-Elohim Anti-Christos human genocide Jehovian agenda, in resistance to the Founders' Emerald Covenant, the Alpha-Omega Anunnaki Templar Melchizedek Order promotes worship of external patriarchal Jehovah, YHWH, Buddha or Anu gods. They seduce followers into surrendering their personal power to the false security of "angelic" and "ascended master" impostors, and use Holographic Insert technology (re: Voyagers Volume-1) to dazzle humans with contrived false religious or spiritual experiences, while hiding the Founders' True teachings of Inner Christos Mechanics. *(Masters Templar Stewardship Manual)*

Just Open Your Heart Philosophy

One of the most common tactics of aggressive manipulation is the promotion of the "Just Open Your Heart" philosophy. This ploy includes the patronization of "not worrying your little mind" about the issue of learning to handle your 15-dimensional anatomy; a standard lesson that any Christed being is required to learn in order to achieve full self-sentient mastery. When running the Anti-Christos Agenda, the Alpha-Omega Order will assure human contacts that the "angels" will protect them or that "thought-adjusters" (AKA Fallen Angelics trained in biologically induced mind control) will "Align Them With God and Ascension."

They promote the idea that the only thing Ascension requires is being a good person and handing your personal power and responsibility for your evolution over to some force outside of yourself. The "Just Open Your Heart" ploy refers to opening your 4th Heart Chakra, which when done without the Founders' Temporary Maharic Seal before full sustained 12th-Strand activation is achieved, opens the D-4 Astral Body level of the auric field to direct Fallen Angelic cording, frequency implants and infiltration.

Christos Agenda Melchizedeks teach opening of the Heart Chakra only with conscious activation of the natural Temporary Maharic Seal, which draws the D-12 frequencies of your own Christos Blueprint into the body to stimulate activation of the D-12 sub-harmonics in each strand of the DNA Template. They call it "opening the heart in only the Christos Way." This activates a natural D-12 Immunity Field within the DNA Template, Bio-energetic Field and Chakra System, which neutralizes the intended effects of harmful covert implants, field infiltration and cording.

The only reason Fallen Angelics can achieve such power to create literal "soul rape" of humans is that humans have been intentionally denied access to the memory and clear, undistorted knowledge of basic Inner Christos Mechanics. Ignorance to the "nature of the game" of multidimensional reality and of how to secure our personal bio-energetic fields through the innate Inner Christos Blueprint is the only true vulnerability Angelic Humans possess. (*Masters Templar Stewardship Manual*)

Human Biology as a Tool

Knowledge and a willingness to take responsibility for ourselves and the natural mechanics of our 15-Dimensional anatomy are the methods by which we can disengage and prevent continued manifestation of Fallen Angelic infiltration and manipulation. Sadly, as we allow ourselves to play the "unwitting victims" to Fallen Angelic manipulation, we progressively assist them in fulfilment of their Anti-Christos Agenda on Earth. The Fallen Angelics' historical and continuing interest in human genetics is not directly personal in nature. The human biology carries the DNA Template Signet Codes that correspond to activation and direction of Earth's Star Gates and Planetary Shields.

The human biology is a TOOL for Fallen Angelics. If they can infiltrate the human DNA Template, block activation of the 12th or higher strands and activate strands 1-11 in reverse sequence, they can anchor their consciousness on Earth within the human body. Once electro-magnetically bonded to the human biology via the DNA Template, the Fallen Angelic consciousness can run the Rite of a Rainbow Round Table during a Stellar Activation Cycle, progressively creating reversal of the natural activation sequences in Earth's Star Gates.

Through creating Monadic Reversal of the planet's Core Manifestation Template, they can fully sever the natural electro-magnetic link between Earth and the D-12 Shield of Aramatena Universal Christos Blueprint. Once this is accomplished, Earth's Star Gate system can be used as an Anti-Christos weapon to destroy Universal Star Gate-12, sealing our Time Matrix at D-11 under Fallen Angelic dominion. This is precisely the core motivation behind Fallen Angelic manipulation of humans; the event the Angelic Human guardian

Melchizedek Sealed Channel

Channeling is about translating energy signatures. It's about pulling in energy signatures. Your body is built to move energy through it and to translate that energy. All you need to do is point your consciousness toward something, move your consciousness into it, because you are a morphogenetic field and so is everything else. These are the illusions: solid things. There's no separation. If you just move your consciousness in a direction, you're moving into the morphogenetic field of something else or someone else. You'll get an imprint. Then bring your consciousness back to you, and you will have something to read.

There are levels of communication: there's live channeling, where you have one of the higher-ups come in; some of them just come right in, they'll walk in, walk around; they'll knock you out where you go to sleep and they walk around in your body. We don't advise that. They tend to be very hard on the physical body and they burn out the circuits fast. Most full body channels lose about twenty years of their life span.¹⁶ You don't need it, because all you need to do is open the lines. The process of conscious telepathic communication means you get to have an open rapport of dialogue or direct cognition between yourself and higher levels of identity. In most cases when you begin opening, it'll be portions of your own direct family line of consciousness that you will receive information from.

Once in a while A'sha allows a member of her Rishi family to use her vocal cords, but not full body – just vocal chords. She comes through the 12-Dimensional Frequency, but she is a part of her Rishi collective.¹⁷ Her name is Azara, and she's allowed to come down only to the throat. She does the meditations, especially the ones where it's like "Okay we're doing a meditation now, but I don't know what it is. They haven't taught me yet." Since she's of A'sha's family line of consciousness, Azara's codes are very similar to hers. She's of the Melchizedek line, so there's not a problem with being compromised.

"When you start to open to your Soul family and your Over-Soul family, those things are okay, and they're permitted. What the Melchizedek Sealing will stop is D-4 interference, fourth dimensional interference due to people who just happened to get thrown out of their body because they got hit by a car – they're floating around in the fourth dimension, not realizing what to do with their consciousness. They're trying to find somewhere to put it. If they happen to find or feel a vibration that happens to be coming from you, if you put it in words it would say "I am open to receive, will someone talk to me." They probably will. They'll probably do more than talk; they'll probably say "Ah ha! A body! Something to put myself in!" And they do this, not because they're trying to be mean but because they're scared...people who cross over without knowing what the ropes are...it's kind of a scary experience until you realize it's okay." (A'sha, *Evolutionary Process of Human Consciousness*)

You don't want to deal with this – you don't need astral interference. Right now the Illuminatis *and* the E.T.s – they're manipulators – *and* the government people they're manipulating are using the 4th dimensional frequencies to do their little mind control games. You do not want to go to D-4 frequency unless you have a full line-up above it that will clear out any distortions in it. In addition, other Fallen Angelic collectives will come in, and if they're not your family line, they will implant you in order to allow them access to your body.

¹⁶ Live body channeling also opens a person to field infiltration and eventual body snatching.

¹⁷ We all have a Rishi collective (Greece 2002).

And once they have it, they won't give it up. This is a quick way to get all your codes reversed. So we never recommend full body channeling.¹⁸

Once you've learned to get your fields sealed, you don't have to worry about anything messing with you. You can communicate with your own Family from the Higher Levels. Family's okay, because you already have the coding within the DNA and they won't distort the body pattern. So it's not going to harm you to move the Gestalt Awareness into yourself. But, the parts, there are levels having to do with the structure of things, such as how the Rishi creates levels of Avatars and they create levels of Over-Souls and the Over-Souls create 12 Souls and every Soul creates 12 Incarnates. It's a BIG Family we're dealing with here, and all of us have the same Pathway as far as: Who is Whose Incarnation. (Greece 2002)

"That's what the Sealed Channel programs are about. And it's something you can do yourself – you don't need anybody to do it for you. It means a lot to a lot of the ones of higher evolution to see us awaken. And they want to help. So it's a very special process of reclaiming portions of your identity that you left behind to get here. For the Ordinations you need a transmitter of the codes. There are certain codes that you have, that you can activate yourself, that will create a Seal. And by activating them you are giving permission to the God-Seed, or to the Melchizedek God-Seed – whichever you direct it to; it's up to you whether you want to say just "My God-Seed" or "Let's go with the Big Guy just to make sure." (A'sha, *Evolutionary Process of Human Consciousness*)

In the program, whether you want to choose Initiation, or just work with the God-Seed without Initiation, you will need to eventually learn how to open a channel. You need to learn to hear your higher parts. Many Melchizedeks teach that channeling is bad, and the reason they're teaching that is because if it's not a Sealed Channel, it can be very dangerous. And you're better off not channeling at all than taking a chance on having something infiltrate you and misguide you into harming yourself or someone else.

At this point it's very important that people learn to open to that guidance,¹⁹ because if things get a little rocky here as we go through these next 12 years, there may not be seminars to go to and things like that. We may be distracted with other things happening. If we knew without having to turn on the television or call up somebody to ask "What do I do next?"; if you knew that you could access that information right through your connection to your higher aspects, you'd feel a lot safer and you'd also take much more effective action. So opening the communication channel is a gift if it's done right, and doing it right is doing it on what's called a Sealed Channel. That is a communication line that's sealed into the God-Seed.

For most people that will be what's called a Melchizedek Sealed Channel, and it's just a matter of working with the energy to reconfirm and make sure that channeled frequency is activated. You've activated it in the body and it creates that link. It creates a conduit of frequency that information can be moved into, and if there's distortion in it, that vibration will purge it out; or it will block out things that are trying to come in and infiltrate you.

There are levels to it. If you work with the God-Seed alone, you can get a relatively sealed channel, better than just trying to channel: "Okay, somebody talk to me." Because what you usually get on those are the D-4 guys: 4th dimensional ones that don't know any more than we do...and sometimes less.

You can seal the channel with the God-Seed, just by doing the Melchizedek Cloister energy work and running the meditations. If you happen to be of one of the pulses of consciousness that came purely out of the Melchizedek Cloister, you will have a Melchizedek Sealed Channel, just by working with the God-Seed. But if you are of a pulse of consciousness that came out of one of the other God-Seeds, that's fine, they're

¹⁸ Melchizedek Sealed Channeling entails becoming a conduit for information using the Maharata/Christos Ray as the carrier wave. Never give up your body to anything or anyone!

¹⁹ This refers to your Higher Aspects of Self, especially your Christos Avatar Self.

all God-Seeds, but it's a different configuration of energy. The Melchizedek God-Seed can process that energy, but if there's any distortion in that matrix, if it happens to be one of the matrices in which there are problems at the Avatar level, there's no guarantee you will not still pick up some of that distortion. So it's not a pure seal unless you happen to be of the Cloister Melchizedek family and you'd have to trace the whole signature or you're not going to find that out. (Evolutionary Process of Human Consciousness)

When you are a Melchizedek Sealed Channel, there are certain configurations in the auric field that serve to block anything else out that doesn't hit the vibration rate of the Melchizedek God-Seed frequency. If there was a disorder to a communication of frequency coming in, it would either try to order it when it hits the Sealing on it, or it would bounce it off if it couldn't do it. So it's like having a frequency harmonizer. And if you can't harmonize the frequency so it doesn't hurt the instruments that the frequency's going into, it'll just bounce it off. And this is what Sealing will do.

Sealing with the Merkaba Star

You ask first, then you simply project a certain image. The image you use in the lower dimensions for the Melchizedeks is the Star of David pattern. And that doesn't mean all Jewish people are Melchizedeks anymore. It means that Jewish people came out of that matrix too. So don't put the symbolism on it; we call it the Merkaba Star rather than calling it the Star of David. It represents the symbol code that controls the 12th dimension, the Christed level of identity. That is the highest level that can be fully embodied in the human gene code. To seal with that, you take that image of the Merkaba Star, and imagine in your God-Seed exercise that you are taking the image up and offering it to your God-Seed, and say "I accept the Seal. I want you to protect my frequencies." Then just bring it back and run it down through you. Imagine a picture of a little flat disk shaped like a two-dimensional Star of David. Some of you might get three-dimensional on it. Whatever your consciousness wants to do with that image – let it do it. And just bring it back down through and run it down to Ur-tha's Core.

Do this as a meditation for a couple of weeks, before you really lean into what's out there. Give it time to take. But it's really simple if you can do that. And if you choose the initiations, or the ordinations, that will amplify it. It will give you more energy to work with – it will give you a Rishi's energy to work with – to help you with these processes. But even if you don't, you still have the processes to begin to work with.

(Evolutionary Path of Human Consciousness)

Communicating With Your Density-5 Self, Your Rishi

Rishi don't channel like normal things channel. When you start to learn to communicate on a Sealed Channel program, you'll hit levels where first you'll get almost a telepathic impression sometimes. You'll say to yourself: "Did I hear that? Must've been my own thoughts that did that. That must've been me." You go through these things. "No, it must be my subconscious." You go through that for a while. Then you start to be able to really feel: "Alright, this is probably something communicating with me, or some higher part of me or whatever." You go through phases, and after a while you will develop what feels like verbal; I call it feel-hear, because it's not hearing voices in your head. A lot of psychology people like to say "Oh, you hear voices in your head, do you?" Like "What prescription might we give you for that problem...?"

First of all, you don't hear them in your head; it's not like hearing out here. It's a little different. And the only time they'll do that is if it's something really important or you're in danger and you're not paying attention. Then they'll do that; they can by triggering certain things, such as your brain chemistry. But usually it is a *felt* hearing, almost like you would see that way, too. You close your eyes and imagine a picture of something: see absolutely nothing, yet you see-feel it exactly in detail – you can tell what color it is, what

shape it is. There's a see-feel and see-hearing that goes with your Inner Senses. You will usually get that first with the Rishi.

If you're going through a process where you're going to work with a stack of guides, which means you'll get one on D-5, you'll get one on D-7 – they'll give you a chain of guiding, which will be **parts of your own identity**. So if you have a guide on D-5, it will be "you" at that level. If your identity has problems on those levels they'll send somebody else in to serve as your guide to help you link with the Rishi, and you may then get verbal. Just like talking to somebody here, but it won't be the loud stuff; it'll be that kind of telepathic energy-vibration-impulse that yes, it sounds like words, but my ears don't hear it.

When you get into real Rishi communication, it is **direct cognition**: you can feel bursts of energy. You can feel transmissions of light that carry huge amounts of data on them. It's like a step-down of the whole process of using words that take too long, and you just get it. This happens quite frequently in workshops. The Rishis transmit balls of energy (very gentle ones) through the Speakers' fields. These will attach to whoever in the room has frequency that's high enough to start pulling it. It will leave little packages of data for you in the form of light. And that data will translate (once you get used to translating) into sometimes something verbal or sometimes you just "get it."

You get this whole big awakening, and you feel like all of a sudden you just know all about a certain thing. So those are some of the things you can look forward to when you begin to communicate with your higher aspects of Self through a sealed channel. (*Evolutionary Path of Human Consciousness*).

A'sha on Channeling

"We do not endorse channeling at all because it can be very, very dangerous to you. However, we do encourage you to learn to communicate telepathically with your own higher identity, the part of you on the Avatar level, the higher frequency aspects of your own collective, your own family. (*Evolutionary Path of Human Consciousness*)

The Reality of Spiritual Actualization

Spiritual Actualization is as much a function of Divine Physics as it is a product of Divine Consciousness. The natural Primal Order of Universal Structure sets the Templates of Manifestation to which consciousness must conform to enter the experience of manifest expression within a space-time-matter system.

The personal Christos Maharic Shield Manifestation Template and the Christos Tribal Shield Species Manifestation Template are microcosmic replicas of the macrocosmic Primal Order upon which Universal and Cosmic structure are built.

The tangible realities of human Spiritual Actualization take place through the Primal Order of the Angelic Human 12-Strand DNA Template. Each DNA Strand Template holds a specific set of "Internal Star Gates" that allow for the progressive merging of the consciousness and energy frequencies of the 1728 selves incarnate within the Two Planetary 12-Cycles of the Cycle of the Rounds.

Spiritual actualization as a REALITY, rather than as a theoretical concepts, takes place through progressive activation of the dormant 12-Strand DNA Template. Each DNA Strand Template corresponds to one dimensional frequency band, to corresponding levels or dimensions of conscious awareness and to a specific set of incarnations within the Cycle of the Rounds.

Spiritual Actualization is accomplished when the 12-Strand DNA Template "Internal Star Gates" have fully opened, allowing the 12 dimensions of conscious awareness of the Eternal Personal Christos Identity to merge and unify within a singular embodiment, across the fields of time.

The KEY to Spiritual Actualization is activation of the dormant personal 12-Strand DNA Template. The fastest means of naturally activating the dormant Angelic Human 12-Strand DNA Template is through:

1. **Activation of the Tribal Shield:** the Species D-12 Christos Divine Blueprint, which represents the **CORE PROGRAMMING** of the personal D-12 Maharic Shield. Tribal Shield Activation would occur as a result of activating the 144 Fire Letters of the Tribal Shield;
2. **Emerald and Amethyst Awakening, 2 Masters Kundalini Activations:** Releasing key Fire Codes between the DNA Strand Templates to allow for **expedited DNA Strand Braiding**;
3. **DNA Template Bio-Regenesis:** Progressive use of internally directed DNA Template Bio-Regenesis technologies for progressive purging of Strand Template mutations, restoration of the natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes;
4. **Master Key Codes:** Use of the personal scalar-wave-guide Symbol Code Programs that correspond directly to the core programming of the personal D-12 Maharic Shield for further sequential expedition of Strand Template Activation; and
5. **Melchizedek Cloister Level-3 Regent Ordination:** Transmission of the Kee-Ra-ShA Primal Light and Khundaray Primal Sound Field "**Rainbow Ray Current**" directly into the personal **DNA Template** via direct **Chakra Induction**.

Sufficient Rainbow Ray frequencies to provide a Level-3 Regent Ordination can be transmitted by a Melchizedek Cloister Level-4 Regent Consummate, Level-5 Elder Consummate or Level-6 Eckar Indigo Child-Type-1 Maji Grail Line Angelic Humans, who have the frequencies of the Primal Creation Currents integrated into their DNA Template from birth.

The Melchizedek Cloister Level-3 Regent Ordination expedites all of the above (Tribal Shield Activation, releasing key Fire Codes between DNA Strand Templates, expedited and accelerated activation of DNA Strand Template Base Codes and Acceleration Codes, use of Master Key Codes for sequential expedition of Strand Template activation), while providing additional bio-energetic field support for more stable cycles of DNA Template activation. (*Masters Templar Stewardship Manual*)

The Rite of the Rainbow Round Table (RRT) and the Melchizedek Cloister Ordinate System.

The Rainbow Roundtable or RRT is a term used in reference to the D-12 Shield of Aramatena Universal Christos Divine Blueprint. The groups of Angelic Humans who gather during Stellar Activation Cycles to run Rainbow Ray Primal Life Force Currents and Star Gate Signet Code Fire Letters into Earth's Planetary Shields to prevent pole shift are also called Signet Councils, and are incarnate members of the Azurite Universal Templar Security Team. Members of the Angelic Human Signet Councils are called "Rainbow Wearers" and Regents of the Rainbow Roundtable." These titles indicate the capacity to hold at least

temporary 12-Strand DNA Template activation, which permits the Regents to run sufficient amounts of the Rainbow Ray Primal Currents to reset the Planetary Christos Divine Blueprint within Earth's Planetary Shields.

In the ancient of days when humanity held conscious knowledge of the Christos Realignment Mission, groups of Angelic Humans with activated DNA Templates would gather together, activate their Tribal Shields and collectively run the Rainbow Ray and D-12 Maharata Currents at specific sites on Earth. Such group work amplified exponentially the amount of the Christos Blueprint frequencies that could be entered into Earth's Planetary Shields. As each human body serves as a frequency receiver-transducer-transmitter, specific "Stands," or the physical placement of human bodies, were used to create the correct balance and distribution of frequency as it entered the Planetary Shields. (*Masters Templar Stewardship Manual*)

The placement of bodies in a group conducting Signet Mechanics (Planetary Templar Core Template and Star Gate activation work) is referred to as a Signet Stand. There are 3 Primary Signet Stands used in running group Signet Mechanics: The Signet Master Stand, the Signet Sentinel Stand and the Signet Trinity Stand. Choice of Signet Stand depends upon the number of individuals in the group. A group assembled to orchestrate Planetary Signet Mechanics has always been referred to as a Signet Rainbow Roundtable, or an RRT. The members of an RRT were referred to as the "Signets" of the RRT.

During Stellar Activations Cycles, many small Regional RRTs were conducted in many different locations, and 24 Primary Global RRTs were run, one on each of Earth's 12 Templar Signet Site Star Gate opening points and their corresponding 12 Templar Cue Site activation locations. Each of the 24 Global RRTs had at its center one pair of Maji Priests called the Signet Consummate (one male, one female; ideally a married couple), that carried the full set of DNA Template Signet Master Key Codes corresponding to the assigned Star Gate. Though the Signet Consummate Pair could run the full Rainbow Ray Current and necessary Signet Codes alone, the integrity of their physical bodies would be greatly compromised by running an excessive amount of frequency.

Each Signet Consummate pair entrusted a group of 12 members to assist in running each Global RRTs. The 12 individuals who fully accepted the "commission of serving the Round" were individually called "Regents" of the RRT, collectively the group of 12 Regents were called the "Consummate Signet Council of 12." The Regents would receive transmissions of frequency from the Signet Consummate Priest pair that would allow for accelerated and sustained activation of 12-Strands in the DNA Template; a "Level-3 Melchizedek Cloister Ordination." The Signet Consummate pair were each a minimum of Level-4 Consummate Melchizedek Cloister Priests, requiring a minimum of 24-36 Strand DNA Templates characteristic to the Ur, Breanoa and Rama Palaidia Urtite-Cloister races and the contemporary Maji Indigo Child Type-2 genome.

The 12 Regents with their Signet Consummate pair were referred to as a "Consummate Signet Council," bearing the number of the Star Gate to which they were commissioned (i.e., "Consummate Signet Council-12, etc.). Consummate Signet Council-11 required the Signet Consummate pair to be a minimum of Level-5 Elder Consummate Ordinate Melchizedek Cloister Priests, with 37-42 Strand DNA Templates characteristic to the Yu Palaidia Urtite-Cloister race. Consummate Signet Council-12 required the Signet Consummate pair to be Level-6 Eckar Ordinate Melchizedek Cloister Priests, with the 48 Strand DNA Template characteristic to the Muarivhi (Mu'a) Palaidia Urtite-Cloister race. The Signet Consummate pair of Consummate Signet Councils 11 and 12, commissioned to Star Gates 11 and 12, were members of the Mu'a and Yu Urtite-Cloister races; their contemporary descendents are known as Maji Indigo Children Type-1.

The many Regional RRT Signet groups were structured in a similar manner, but rather than having a Signet Consummate pair at the center, there was a Signet Regency, or one male and one female Regent

who carried the DNA Template coding corresponding to their Star Gate assignment. A Regional RRT is called a Regency Signet Council. The Signet Regency pair of a Regency Signet Council transmit the frequencies that allow for accelerated and sustained activation of 9-Strands in the DNA Template; a "Level-2 Melchizedek Cloister Ordination."

The 12 supporting members of a Regional RRT are called RaB'nai, or Level-2 Ordinate Melchizedek Cloister Priests. If ordained RaB'nai willingly participate in self-directed DNA Template Bio-Regeneses to ensure that the structural integrity of the 12-Strand DNA Template is intact, they could receive Level-3 Regent Melchizedek Cloister Ordination from a Level-4 Consummate pair, to further expedite full 12-Strand activation. *(Masters Templar Stewardship Manual)*

Organic 12-Strand activation naturally progresses in a RaB'nai regardless of further ordination; the advantage of progressive ordination is in expediting and accelerating the natural strand activation process through manual stimulation of the Strand Templates. The Regency Signet Council of Regional RRTs could be made up of the Regency pair and 12 RaB'nai, completely of Level-3 Regent Melchizedek Cloister Ordinates, or any combination of the Regency pair, Regents and RaB'nai.

Level-2 RaB'nai (9-strands initiated for as-needed activation) have the ability to transmit 6-strand DNA Template activations for Level-1 Minister Melchizedek Cloister Ordination. Level-3 Regents (12-Strands initiated for as-needed activation) have the ability to transmit 9-strand DNA Template activations for Level-2 RaB'nai Melchizedek Cloister Ordinations.

Level-4 Consummate Melchizedek Cloister Ordinates (minimum of 24-strands initiated for as-needed activation) have the ability to transmit 12-Strand DNA Template activation for Level-3 Regent Melchizedek Cloister Ordination. To become a Level-4 through 6 Melchizedek Cloister Consummate Ordinate, one had to possess the 24-48 Strand DNA Template characteristic to 5 Palaidoria Urtite-Cloister races, which is the Indigo Child Types 1 and 2 genome.

Without the "indigo Child" genetic configuration, an individual's DNA Template would be progressively compacted and fragmented by the excessive transmission of D-13 and higher frequency characteristic to Level-4 – 6 Melchizedek Cloister Ordination. Only the Yanas Ascended Masters collectives from beyond the 15-dimensional Time Matrix, and their embodied Azurite-Oraphim-Lyran-Sirian-Human incarnate Eckars, (the 48 Strand Mu'a and Indigo Children Type-1 potential), can transmit the full Kee-Ra-ShA and Khundaray Rainbow Ray Currents for Level-4 Consummate Melchizedek Cloister Ordination. *(Masters Templar Stewardship Manual)*

Roundtables and Ordinations

"When we do Roundtables, people are asked to do Regent Level because...you can do a roundtable without any ordinations...but you're not going to be running much frequency. If you put a whole bunch of people together that didn't want to do ordination, they could run a Roundtable, but they'd be running...you can picture it like a tap running with water...the group of people that were doing it without having the activations done through the ordination would be like turning on the tap just went drip..drip..that's how much frequency they would be running—not very much.

When you get a bunch of Regents together, which is Level-3 Ordination, it's like turning the faucets on full force. And if you get a bunch of Regents who are working on amplifying their ability to hold current, it's like really turning the water on. And the water is your own Christos frequency." *(A'sha, Peru 2001)*

Melchizedek Cloister Ordinate System and the Cycle of the Rounds

The Twelve Tribes and the Roundtables

The 12-Tribes of the 4 Rounds of the Angelic Human Cycle of the Rounds Evolutionary Divine Blueprint were seeded on Earth specifically for the purpose of serving the Sacred Commission of fulfilling the Planetary Christos Realignment Mission.²⁰ Each of the 12-Tribes in any one Evolutionary Round was composed of various combinations of the 5 Primary Races manifest within that Evolutionary Round.

The DNA Templates of each of the 12 Tribes were encoded with the DNA Signet Codes encrypted into the DNA Template and each Tribe was seeded on the 2 primary locations affiliated with the Star Gate number to which the DNA Signet Codes corresponded. The 12 Tribes of each Evolutionary Round were repeatedly resettled in the same geographical regions of Earth that corresponded to the 12 Star Gates of Earth to which the DNA Templates of the Tribes were "frequency keyed."

The other Evolutionary Rounds are not a bygone reality of the ancient past; they are reality NOW. Time is simultaneous; the other Planetary Time Cycles within which the other Evolutionary Rounds are taking place exist concurrently with our contemporary Planetary Time Cycle, within their respective space-time vectors. The Time Cycles of the past and future Evolutionary Rounds are intimately interconnected with our present Time Cycle; each Round directly affects the other.²¹ (*Masters Templar Stewardship Manual*)

12-Cycles, Simultaneous Incarnation and DNA

The reality of the Cycle of the Rounds holds great personal significance as well as unprecedented collective importance. The individuals incarnated within the other Evolutionary Rounds are simultaneous incarnations of ourselves.

In the Cycle of the Round Blueprint, there are 4 rounds, each containing 3 Planetary Time Cycles, for a total of 12 Planetary Time Cycles in the Particle Universe. This interwoven set of 12 Planetary Time Cycles is called a "Planetary 12-Cycle."

There is a corresponding evolutionary 12-Cycle concurrently taking place within the Anti-Particle Universe of Parallel Earth. The Cycle of the Rounds Divine Blueprint includes both the Particle and Anti-Particle cycles for a total of two Planetary 12-Cycles within the Cycle of the Rounds.

The pattern of two Planetary 12-Cycles is the Core Manifestation Template of the Angelic Human Evolutionary Blueprint. To incarnate in human form, a consciousness must adopt this Primal Order of the Angelic Human Evolutionary Divine Blueprint.

Our Personal Christos

Every human Incarnate is part of a larger "family" of incarnated selves called the Personal Christos. The Personal Christos is the Eternal Personal Identity that includes 1728 simultaneous incarnations, each placed within various space-time locations, or Time Vectors, within the 4 Rounds of the Cycle of the Rounds.

In each of the 4 Evolutionary Rounds there are 216 simultaneously incarnate selves, and their anti-particle counterparts within the Parallel Earth system, for a total of 1728 Incarnates (216 selves x 4 Rounds = 864

selves + 864 anti-particle counterpart selves within the Parallel Earth system = 1728 selves).

Each of our 1728 Angelic Human selves in their respective Time Vectors is interconnected with each other across time through a shared DNA Template. When activated, the 12-Strands of the 12-Strand DNA Template serve as "electromagnetic windows" or "Internal Star Gates" through time.²²

Through the activated 12-Strand DNA Template, the frequencies of energy and consciousness of each of the 1728 selves merge into an embodied, unified consciousness awareness. Each individual incarnate self comes to know itself as an Eternal Christos Avatar Identity that is simultaneously manifesting in 1728 different Time Vectors, wearing the "costume" of 1728 different bodies and personality characterizations.

The 1728 simultaneous incarnations of the Personal Christos Eternal Identity represent the "reincarnational" heritage of every 12-Strand Angelic Human being; every human being possesses the dormant imprint of a minimum of the 12-Strand Angelic Human design. The tangible reality of the Personal Christos is held into manifestation within the Personal Christos Divine Blueprint; the D-12 Pre-matter "Liquid-Light" (Hydroplasm) Maharic Shield.

The Personal D-12 Christos Divine Blueprint Maharic Shield connects each Individual Christos Self to the larger D-12 Christos Divine Blueprint of the Species. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.

The secrets to reclaiming the Divine Birthrights and Responsibilities of Angelic Human heritage are hidden within the realities of the Tribal Shield and the specific "Fire Letter Sequences" of the Tribal Shield that manifest within and govern the function of the Angelic Human DNA Template. (*Lemurian and Atlantian Legacies*)

Melchizedek Cloister Ordinate System

The non-patriarchal "Melchizedek Cloister Ordinate System" has never been a "religious-dogma" order; Melchizedek Cloister Ordinations represent progressive levels of DNA Template activation and the transmission of frequencies through which these organic processes can be naturally expedited. DNA Template activation is THE process by which the higher dimensional aspects of personal spiritual identity, including the D-12 Christ Consciousness level, progressively embody within the physical and identity.

The Melchizedek Cloister Ordinate System has always been an intrinsic part of the "Cycle of the Rounds" Angelic Human evolutionary Divine Blueprint and an essential dynamic of the "Rite of the Round Table." Specific combinations of frequency, specific levels of DNA Template activation and specific combinations of Angelic Humans carrying various portions of the D-12 Universal Christos Blueprint, are required to effectively orchestrate the mechanics of Planetary Star Gate Activation and Templar dynamics. It is necessary for the Founders to be aware of the distribution and organization of DNA Template activation within the various groups of Humans incarnate on Earth in each cycle.

To ensure that the necessary combination of frequencies enter Earth's Planetary Shields during the appropriate points in the Cycle of the Rounds, the Melchizedek Cloister Ordinate System was created as an intrinsic part of the Christos Realignment Mission design. The Melchizedek Cloister Ordinate System is not a hierarchal order built upon the Anti-Christos premise of "elitist race supremacy;" it was designed as interdependent, cooperative, race co-creation. Earth's Planetary Grids could not sustain the bio-energetic fields of a Cycle of the Rounds of 48-Strand incarnate beings.

²² For more on time and time cycles, see "Time: Anatomy of the NOW Moment" handbook and the Masters Templar Stewardship Initiative Manual.

Certain Angelic Human collectives agreed to incarnate through biological forms that carried less sophisticated DNA Templates, while members of the Yanas collectives from beyond the Time Matrix incarnated into the 43-48 Strand biology to run sufficient amounts of the Khundaray frequencies beyond Dimension-15. Before Fallen Angelic DNA Template manipulation distorted the biological perceptual filters of Angelic Human anatomy into elitism and competition, all Angelic Humans understood that the value of each member of the collective was equal to all others. Races having more sophisticated DNA Templates, and thus the ability to fully embody more conscious awareness within the physical form, valued the other races equally to themselves and understood that they were all the same being, God-Source, playing different but essential interdependent roles.

Love, nurturing, respect, reverence and understanding of the essential value of each member was shared equally by all races, and all were aware of their Divine Validation as blessed members of the Christos Realignment Team. All races were grateful for and appreciative of the unique and essential contribution that each brought to the Christos Realignment Team, and all were aware that the contribution of each race and loving cooperation between all races was utterly essential for success of the Christos Realignment Mission. Before Fallen Angelic infiltration and digression, the beauty, eloquence, power and love characteristic of the Founders' Lyran-Sirian Emerald Covenant Cultural Model was once actively demonstrated among the Palaidia Urtite-Cloister Angelic Human Races.

Like the Lyran-Sirian Cultural Model, the Emerald Covenant, the Christos Realignment Mission and the Rite of the Rainbow Round Tables, the Melchizedek Cloister Ordinate System was an intrinsic part of the Angelic Human heritage. Through the Melchizedek Cloister Ordinate System, Angelic Humans possessed the knowledge and technical ability to assist in the loving evolution of Earth's Mineral, Plant, Animal and Elemental Kingdoms, and to offer DNA Template Bio-Regeneses through which Fallen Angelic races could heal and reclaim their intended birthright of ascension. (*Lemurian and Atlantian Legacies*)

Soul, Over-Soul, and Christos Avatar Embodiment

Through progressive activation of the 12-Strand DNA Template, the DNA "Internal Star Gates" between the 1728 simultaneously Incarnate Selves of the Personal Eternal Christos Identity progressively open. Opening of the Internal Star Gates of the DNA Template allows the 12-Dimensional Frequency spectra of the Soul, Over-Soul and Christos Avatar Identity levels to sequentially and consciously embody within the Angelic Human form. (*Masters Templar Stewardship Manual*)

Soul Integration: Level-1 Minister

Activation of DNA Strand Templates 4-6 opens DNA Star Gates between Incarnates in Planetary Time Cycles 1-2-3 and 4-5-6. The 6th-Strand Activated Being possesses 6-dimensional consciousness, is a fully embodied SOUL, can pass through Universal Star Gates 1-6 of Densities 1 and 2 via formation of the 6-dimensional Hallah Phase Merkaba Vehicle and building of dimensions 1-6 of the Antahkarana Primal Life Force Current.

Over-Soul Integration: Level-2 RaB'nai

Activation of DNA Strand Templates 7-9 opens DNA Star Gates between Incarnates in Planetary Time Cycles 1-2-3, 4-5-6 and 7-8-9. The 9th-Strand Activated Being possesses 9-dimensional consciousness, is a fully embodied OVER-SOUL, can pass through Universal Star Gates 1-9 of Densities 1,2 and 3 via formation of the 9-dimensional Quatra Phase Merkaba Vehicle and building of dimensions 1-9 of the complete Antahkarana Primal Life Force Current.

Christos Avatar Integration: Level-3 Regent

Activation of DNA Strand Templates 10-12 opens DNA Star Gates between Incarnates in Planetary Time Cycles 1-2-3, 4-5-6, 7-8-9 and 10-11-12. The 12-Strand Activated Being possesses 12-dimensional consciousness, is a fully embodied CHRISTOS AVATAR, can pass through Universal Star Gates 1-12 of Densities 1,2,3 and 4 via formation of the 12-dimensional Mahunta Phase Merkaba Vehicle and building of dimensions 10-12 of the Christos Maharata Primal Life Force Current. Capable of full Ascension out of manifest matter density. (*Masters Templar Stewardship Manual*)

Regents Consulate

The program is designed to protect the integrity of the original Emerald Covenant Founders' teachings and to protect the loving, Law-of-ONE-based **ethical standards** of the Azurite Press within the international community. Unfortunately, since the initiation of the Azurite Melchizedek Cloister ministry in 1999, there have been occasions when individuals accepting Azurite Melchizedek Cloister Ordination have intentionally or unintentionally misrepresented or altered the Azurite Melchizedek Cloister Emerald Covenant teachings to suit personal agendas. Some attempted to abuse their position of Azurite Melchizedek Cloister clergy in exploitation for personal gain, or have employed obvious lack of ethical standards while claiming to serve as representatives of the Azurite Press Melchizedek Cloister.

As per the Founders' Universal Law of ONE perspective, Azurite Press Melchizedek Cloister Ordinations are always offered free of charge and without imposition of external judgment or assessment concerning ethical, educational, denominational or monetary criteria. Azurite Melchizedek Cloister Ordinations are offered as a service to the higher "Christos Avatar" identity of each individual. Ordination is conducted simply to facilitate ones awakening to a personal relationship with God; how one chooses to conduct themselves as a general Melchizedek Minister is left to the guidance, discretion and consequence of the unfolding Self/God relationship. (*Azurite Temple Emergency Intervention Meetings of October 27 and November 10, 2001*)

In this regard, a Melchizedek Ordination is not "revocable" by Azurite Press Melchizedek Cloister even when the privilege of the ministerial title is abused; one is accountable for their actions to GOD, not to an Azurite Press Melchizedek Cloister "hierarchy." However, in order to protect the integrity of the Emerald Covenant teachings, to uphold the ethical standards of the Azurite Temple Melchizedek Cloister and to protect the public from potential ministerial misconduct falsely rendered under the Azurite Press Melchizedek Cloister name, the Regent Consulate Program initiates a simple contract of ethical commitment. This contract of ethical commitment entered between Azurite Press Melchizedek Cloister and those desiring to become Azurite Press-endorsed Melchizedek Cloister Regent Consulates, is called the **"Covenant of the Regent Consulate-World Wide Active Service Agreement".**²³ (*Azurite Temple Emergency Intervention Meetings of October 27 and November 10, 2001*)

"Now we will for the first time in many, many eons step into as Consciousness our original home within the Heart and Mind of God – we will now enter our God-Seed. We will return to our family where the God-Seed is Gestalt Consciousness and there are infinite members of our family and here we will be welcomed with the Vibration of Love." (*Azara, Evolutionary Process of Human Consciousness*)

Although the distance is seemingly great, distance is nothing in the Mind of God.

LEVEL ONE "MINISTER" ORDINATION PROCEDURES

1. Preliminary Instructions

For Ordinand:

Explain what a Level-1 Ordination (see rest of section 1):

Purpose: The purpose of receiving **Ordinations** is to **expedite DNA Activation**. The process is performed by someone who has the ability to run the specific frequencies. This individual will connect with the **Christos** of the individual desiring ordination and ask permission to continue with the ordination.

Once permission has been given then a frequency bridge will be created between the person desiring ordination and their **Highest God-Seed Self**.

Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as "Priests" or "Ministers." The word "priest" originally meant "guardian" or "steward and administrator of spiritual wisdom."

An **"Initiate"** is one who has been born with, or accepted, transmission (Melchizedek Initiation) of the morphogenetic field *imprint* of the full 12-Strand DNA Silicate Matrix, and has entered the path of Ascension through the Melchizedek Priesthood or the Melchizedek Cloister.

A **Level One "Minister"** is one who has accepted Ordination through the Melchizedek Priesthood or Melchizedek Cloister, by which the Rishi Level of personal identity is bonded to, and activated within, the DNA – to begin the process of activating DNA Strands 4-6 for the process of Alphi-Hova Body merger and Soul Integration, through which Soul Awareness embodies within the physical body.

For Ordination Leader:

- Have Ordinands activate their Maharic Seal. If they're new to KS, lead them through the Maharic Seal Technique.
- Lead everybody through the **Emerald and Amethyst Awakenings** or the technique for **"Opening the Healing Channels – Doradic Phase I Current."**

2. Preparation for Presiding Ministers

- Activate your personal Maharic Shield;
- Run your Doradic Phase I Current

3. Ordination Process

- Ordinands will stand; if there are several, the easiest is just to have them stand in a line or a circle.
- Ordinating Ministers will take places in front of the Ordinands.

One who has accepted Ordination through the Melchizedek Cloister for the purpose of accelerating the process of Higher Identity embodiment, by which the Over-Soul Identity begins integration with the conscious personality for acceleration of the Soul and Over-Soul integration process and merger of the Betcha-Hova Body. This level facilitates a full Rishic bond, facilitating full Ordination, incorporating the Emerald Awakening as an intrinsic element of the process.

Level-2 begins activation of the 7-9 DNA Strands, which allows the individual to become a transmitter of the Silicate Matrix Imprint, to conduct Level-1 Ordinations for others. At this level, the Over-Soul can transmit 9-D frequency, providing a link to, as well as initiating, the Christos Template 12-Strand pattern (particularly when incorporated with the Maharic Infusion and regular work with the Maharic Seal). (*Masters Templar Stewardship Manual and Lemurian and Atlantian Legacies*)

Regenesis

The process of Regenesis begins with the release of the cranial-sacral seals (facilitated by the Emerald Awakening in conjunction with the energetic transmissions through 3rd – 6th Degree Melchizedek Cloister Ministers). The processes associated with the Emerald Awakening opens the Hova Bodies to each other by pulling the plugs that support polarization, and which exist at the junction/crossbars between Kathara Centers: 3-4 and 2-5; and 6-7 and 5-8.

The Amethyst Awakening, which can now be undertaken immediately after the Emerald Awakening unplugs the seal between Centers 9-10 and 8-11.¹⁴ (*A'sha, Lemurian and Atlantian Legacies*)

Level 3-Regent

A Regent is one who is born with a contract to embody as a full Avatar during the present incarnation. The Regent Ordination initiates latent Avatar Contracts, enfolding the planetary levels of service, associated with RaB'nai, with the Galactic level.

Avatar Contracts, which represent activation of DNA Strands 10-12, are decided prior to birth in agreement with the Higher Councils of Light (Meta and Ultra-terrestrial Identity Gestalts from Dimension 13, the Eckatic Level). Not everyone has such contracts of Avatar embodiment. One can awaken to Avatar Contracts through working through the previous levels of Ordination. It is between "you and God."

Avatar embodiment represents merger of the Mahara Hova Body and expansion into the "Christed" identity level. Regent Ordination begins the activation of DNA Strands-10-12 (subharmonics). If they went into full activation at the same time as others, the effect would blow the planetary grids, because they couldn't hold all the frequency quite yet.

One of the fastest means of naturally activating the personal 12-Strand DNA Template is a Melchizedek Cloister Level-3 Regent Ordination. This happens by transmission of the Kee-Ra-ShA Primal Light and Khundaray Primal Sound Field "Rainbow Ray Current" directly into the personal DNA Template via direct Chakra Induction. Your Avatar level sends down a Pale Silver Stream of Liquid Light, a large hydroplasmic current right from your Rishi that goes into the first 8 cells at the base of the spine, and reopens your connection to your Christos. (*Dublin Feb 2003 – Forbidden Testaments of Revelation*)

Sufficient Rainbow Ray frequencies to provide a Level-3 Regent Ordination can be transmitted by a Melchizedek Cloister Level-4 Regent Consummate or Level-6 Eckar Indigo Child Type-1 Maji Grail Line

¹⁴ In 2000, because of personal shield holding capacity, one needed to wait at least 6 months after the EA to receive the AA. Several years later it changed to 24 hours; and now it can be done immediately after the EA.

Angelic Humans, who have the frequencies of the Primal Creation Currents integrated into their DNA Template from birth.

A Level-3 Regent Ordination expedites activation of the 144 Fire Letters of the Tribal Shield, releasing key Fire Codes between DNA Strand Templates to allow for expedited DNA Strand Braiding. It helps progressively purge Strand Template mutations, to help in restoration of the Natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template, and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes. It also provides additional bio-energetic field support for more stable cycles of DNA Template activation. (*A'sha, Lemurian and Atlantian Legacies*)

Level 4-Consummate

One who is born with a contract to Anchor the Rishi Identity (Dimensions 13-15) into the bio-energetic field of the body, following fulfilment of an Avatar contract. Merger of the Raja Hova Body.

Level 5-Commodore / Elder Consummate

One who has achieved full Ascension to the Triadic or Polaric Matrix in a previous lifetime and has returned carrying the "Cap Stone" codes of ascension within the DNA and morphogenetic field. Merger of the Tanotra and Di-Omni Hova Bodies. Ascended Masters Levels 1 and 2.

Level 6-Eckar

One who has achieved full ascension to the Eckatic Matrix in a previous lifetime and has returned carrying the "Crown Jewel Cap Stone" codes of ascension to the Eckatic Matrix within the DNA. Ascended Master Level 3. (*Masters Templar Stewardship Manual*)

Expediting Ascension

The practice of Melchizedek Ordination (MCO) can save the Incarnate many millennia of earth incarnation cycles throughout the lower multi-dimensional universes, thereby providing for the Incarnate a rapid path of ascension and At-One-Ment with the God-Mind. The decision of the Earth Incarnate to accept MCO helps the entire multi-dimensional gestalt to expedite its own process of ascension. Thus the 24 God-Seed identities encourage the process for earthly Incarnates.

If the higher bodies of an individual's Family Tree are aligned (allowing the proper building of the Pillar of Light) the MCO serves simply to accelerate the natural process of ascension through the organic Monad and God-Seed. But if the integrity of the Pillar of Light (between Incarnate and God-Seed) is compromised through Monad distortions, then the MCO serves as a lifeline for the Incarnate and its hierarchy of identities. Special "Light Exercises" activate the God-Seed and begin the process of building the Pillar of Light...but these do not realign distortions within the higher bodies. (*Tangible Structure of the Soul*)

5th DNA Strand Imprint

In *Tangible Structure of the Soul*, there is a technique where you practice visualizing the color blue.¹⁵ If after about 6 months of practicing this exercise your visualization of the color blue does not shift into the

¹⁵ *Tangible Structure of the Soul*, Technique #2: Anchoring the D-5 Archetype

indigo blue-violet spectrum, you may not possess the 5th DNA Strand Imprint within your Morphogenetic Field. Trusting your guidance, you may desire to seek initiation from a qualified Melchizedek Cloister Emerald Order minister in order to receive the full imprint of the 12-Strand Silicate Matrix.

It's valuable to use this exercise before receiving Melchizedek Cloister Ordination, or if you are uncertain whether you have the 5th strand DNA imprint, as it will bring the 5th dimensional frequencies of the Archetype Identity into your Morphogenetic Field, awaiting the imprint of the 5th DNA strand. Once the 5th strand is imprinted, the new frequencies will naturally enter the imprint of the 5th DNA strand, beginning the process of anchoring the Archetype Identity.

The process of receiving the imprint of the 12-Strand Silicate Matrix is quite simple and involves energy transfusion from the palms of the minister into your bio-energetic field. Many people have all or part of this 12-Strand Silicate Matrix DNA within their Morphogenetic Field.

Accepting a Melchizedek Cloister Initiation or Ordination is simply a way of ensuring that you possess the needed dormant imprint of the Silicate Matrix within your Morphogenetic Field. Full expansion of the identity and merger of the Ariea Hova Bodies requires the morphogenetic imprint of the 12-Strand Silicate Matrix.

Melchizedek Cloister Ordinate-Degree System versus Initiate-Degree System

Melchizedek Ordinations represent a bio-energetic field process of interdimensional physics, through which the scalar-wave blueprint of the original human Silicate Matrix "Crystal Gene" 12-Strand DNA Template is restored to its organic order, and once restored, dormant strands of the DNA Template are systematically brought into accelerated, but natural activation. Activation of the Silicate Matrix expedites the organic dynamics of forward evolution by progressively creating embodiment of an individual's higher dimensional "Spiritual" consciousness, while preparing the body for Transmutative Dimensional Ascension into Silica Based Biology of the immortal "Angelic Human" form.

The Melchizedek Cloister Ordinations System differs from other Melchizedek Ordinations Systems in that most other Melchizedek Ordinations work through a series of 7-12 "Initiations" then consummate in a 1st-Degree Ordination. Such systems represent the Initiate-Degree System, which begins 12-Strand activation, but does not expedite its process sufficiently to enable an individual to achieve Ascension in the present lifetime. The Initiate-Degree System completes with activation of the 6th DNA Strand Template and embodiment of the Dimension 4-6 Soul Matrix identity. (*Masters Templar Stewardship Manual*)

The *Melchizedek Cloister Ordinations System* is the Ordinate-Degree System of the Emerald Order Melchizedek Cloister Khundaray Priests of UR ("Keepers of the Eternal Flame"). It begins with 1st-Degree Ordination, where the Initiate-Degree System leaves off, then continues through 5 Progressive levels of Ordination, through which the 6th – 12th DNA Templates activate, (in Indigo Children the DNA Template can activate between 24 - 48 Strands).

As an Ordinate-Degree Minister progresses beyond Soul Matrix integration, the frequencies of consciousness from the Over-Soul, Avatar, Rishi, Entity, RishA and Eckar identity levels of dimensions 7-15, plus those of the Khundaray, can systematically embody, awakening the biological potentials for full transmutation of matter density.

- Ask, telepathically, the Ordinand's D-12 Christos Self for permission to proceed with the Ordination;
- Run a "Sheet" of Pale Silver Light from your own Maharic Shield (12" below your feet) to a point 12" below the Ordinand's feet to trigger activation of their Maharic Seal.
- Have the Ordinand Read Out Loud or Repeat Out Loud after you: **VOW to the I AM.**

VOW to the I AM

**I AM a Child of the Original ONE.
I AM a Ray of the Original Sun,
I AM Wholeness, I AM Love.**

**I AM the Truth that Spans the Sands of Time,
I AM the Rainbow of the Very First Shine,
I AM Music, I AM Light.**

**Let the Light Descend Upon Me,
Guide the Way with Golden Light,
No Other God will Stand Before Me ...
As I Embrace the One True Life I was Born to Live ...
By the Will of the Original ONE.**

**I AM a Face of the Original God,
I AM a Voice of the Original Sound,
I AM a Wave Upon the Ocean of Eternal Light.**

**I Reach My Arms UP to the Heavens, and say,
I AM THIS I AM.
The Presence of the Ancient One
Springs Forth at My Command.
I AM One with God,
I AM THIS I AM ...**

And, as I Decree It, So It Is.

- Stand in FRONT of the Ordinand. Place LEFT Hand over back of RIGHT Hand – and – with hands together place the RIGHT Palm over the 7th Crown Chakra (Hold thru # 6)
- INHALE a large breath of Pale Silver Maharic Energy, from the Earth Core, up to your Heart Center.
- (All on one breath) EXHALE while pushing a Pale Silver Cord from your Heart Chakra, down your RIGHT arm and INTO Ordinand's Crown Chakra - and - ALL THE WAY down their central vertical channel, and into the Earth's Core beneath their feet.

- **PAUSE** – listen/ feel with inner hearing for (or at least sense the vibration of) 3 simultaneous, inaudible, sound tones emerging from Earth's Core beneath the Ordinand's central vertical current.

(The tones are struck when your D-12 sub-harmonic Maharata Current, Silver Cord, pushes a replica of their DNA Template / Chakra Seals Coding into their 13th Chakra at Earth's Core. The tones are their "Life Current Tones").

- When the 3 Tones are noted, **INHALE** rapidly and **FORCEFULLY**, drawing a Pale Turquoise (D-13 sub-harmonic) cord up the Ordinand's central vertical column – from THEIR OWN 13th Chakra – to meet your **RIGHT Palm** - still on top of the Ordinand's head. (This activates their 7th Star Crystal Seal).
- When **FUZZY** Energy is felt in your **RIGHT Palm** (indicating step 5 is done) **INHALE** a **BALL** of **PALE TURQUOISE-PALE SILVER** Frequency from their Crown Chakra, into your **RIGHT Palm** – as if the ball of energy sits between your right palm and their head.
- **INHALE** ...Imagine **HOLDING** the **PALE TURQUOISE-PALE SILVER BALL** in your **RIGHT Hand**
- **MOVE** your **RIGHT Hand (ONLY)** over Ordinand's 4th Heart Chakra and **INHALE** the **PALE TURQUOISE-SILVER BALL** through your **RIGHT Palm**, **UP** your **RIGHT Arm** and into **YOUR HEART Chakra**
- Now, place your **LEFT Palm OVER** the back of your **RIGHT Hand** (which remains over Ordinand's Heart Chakra) and **FORCEFULLY EXHALE**, using the exhale breath to **PUSH** the **PALE TURQUOISE-SILVER BALL** from your Heart Chakra, through your **RIGHT Arm**, into your **RIGHT Palm** and **INTO** the Ordinand's **HEART Chakra** (activating their 4th Star Crystal Seal).
- **INHALE FORCEFULLY** as you move **BOTH Hands** to about **6" ABOVE** the Ordinand's head **ALLOW** the electro-magnetic currents in your hands to **DRAW** the Ordinand's **TURQUOISE-SILVER CURRENT UP** from their **CROWN Chakra**, until it forms a **SPRAY** or **BURST** of **LIGHT** (mostly Silver, with bursts of Yellow, Magenta, Purple, etc.) about their head ... **OPENING Chakra 10**.
- **END** by **GENTLY** touching the Ordinand's **THYROID Gland** (just below the Throat) with the fingertips of your **RIGHT Hand** – and – **CLOSE** with a gentle kiss (D-5 Frequency sub-harmonic transmission) to their forehead, at Chakra 6, 3rd Eye position.

4. **Conclusion:** Song of Lyra, Vow to the I AM, and/or whatever Psonns seek to be heard.

Opening the Healing Channels – Doradic Phase-I Current

- 1 Breathe slowly and deeply for several breaths while visualizing or imagining a 4" Violet Dot on the center of the *inside of your forehead*. Make the color image as strong as you are able. (If you can't yet perceive inner colors of visualization, simply imagine the Violet Dot as being there).
- 2 Move the Violet Dot to the center of the brain at the **Pineal Gland**, and then upward into the **7th Crown Chakra**, from the inside of the head moving upward and outward until the Violet Dot rests on top of your head at the Crown Chakra.
- 3 Call to mind the **Hierophant Symbol** (Pale Silver Merkaba Star formed by combining 2 Merkaba Stars).²⁴ Visualize the spinning Hierophant stationed 12" below the feet within your **Maharic Shield** and slowly **INHALE**, drawing the Hierophant up through the Central Body Current, up to meet the Violet Dot at the **7th Crown Chakra** at the top of the head. When the Hierophant connects with the Violet Dot visualize the Violet Dot bursting into a **4" Vertical Pillar** of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body into the Earth Core and upward to the **14th Chakra** 36" above the Head. You have activated the **Violet Ray of Transmutation**.
- 4 Move your attention to the **4th Heart Chakra** and imagine a *small Green Spherical Crystal* – the **Green Star** – stationed its core. This is the *Green Star Crystal Seal* that controls release of the 4th Dimensional frequency – Phase-I *Doradic Current* – into the body. **INHALE**, drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star.
- 5 **EXHALE**, expanding the Violet-Silver energy into the Green Star Sphere.
- 6 Repeat 2 more **INHALE-EXHALE** breaths, drawing Violet-Silver Energy from the Pillar and expanding it into the green star sphere.
- 7 At the end of the last **EXHALE**, imagine the **Green Star popping**, turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears.
- 8 Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning in the center of the 4th Heart Chakra. The Green-Violet ball is the storehouse for your Phase-I Doradic Current; it is called the **Doradic Sphere**.
- 9 **INHALE** and draw Pale Silver energy from your **Maharic Shield**, through the Central Body Current and into the center of the **Doradic Sphere** at the 4th Heart Chakra, encasing the Sphere in translucent Pale Silver Light.
- 10 **EXHALE** quickly, and push 2 Cords of Green-Violet energy—**Doradic Cords**—from the Doradic Sphere *down the inside* of your arms, one cord through each arm. As the ends of the Doradic Cords reach the inside of your hands, notice a sensation of mild resistance as the Cords push against the *etheric membranes* covering the small chakras in the palms.
- 11 **INHALE** a full breath, drawing Silver energy up from the **Maharic Shield**, into the Doradic Sphere at the 4th Chakra.
- 12 **EXHALE forcefully**, pushing more energy down through the Doradic Cords in the arms, and feel this energy "**pop**" out of the palms, *releasing the membranes* on the palm chakras.

²⁴ For those already working with the Maharic Seal, the hierophant symbol of the Merkaba Star can be replaced by the Eckasha Symbol.

- 13 Continue to **INHALE** energy up from the Maharic Shield into the Doradic Sphere and **EXHALE** it through the Doradic Cords, building the strength of the Doradic Current in both palms. Imagine the Doradic Current *pooling in the palms* to form 2 Green-Violet balls of light, about the size of tennis balls. Energize the Doradic Sphere and Cords until you can sense the smaller **Doradic Balls** formed in the palms of your hands.

Your Doradic Current is now activated for use in healing facilitation.

The Emerald Awakening Technique

Introduction

During Fetal Integration, the First Cell, at the base of the tailbone, opens to receive 12th Dimensional, Maharic Frequency – the “Light of God.” This represents a lifetime supply of “Life Force” or Kundalini energy available to each incarnate being. Once the infusion is received by the fetus, the energetic system closes and becomes, literally, sealed.

The 3 Primary Kundalini Spirals each contain 3 single-dimension currents, and are controlled by the corresponding Signet Star Crystal Seals in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields, that manifest within the Kathara Level-2 Grid, First 8 Cells and DNA Template as Frequency Seals or blockages within the Tailbone (Sacral region) and the Pineal Gland in the center of the brain...the Cranial-Sacral Seals.

When the Cranial-Sacral Seals are released, through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body.

Everyday living depletes this supply of Life Force. It cannot normally be replenished, but that is a part of what the Emerald Awakening achieves.

The Emerald Awakening is the natural process by which we use Unified Field Physics to trigger our Christed Selves. Hydro-plasmic energy and kundalini are energies which emerge from the Kee-Ra-ShA, the 3 primary Creation Currents represented by the Blue, Gold, and Violet Flames. These Flames are the three primary sets of Meta-mathematical coding which embody all others, and which activate the 12 strands of DNA through the 12 sub-strands or Fire Letters. This in turn releases and opens the Emerald Star Crystal Seal, signet Seal #4.²⁵ (*Masters Templar Stewardship Manual Field Guide*)

The sequence of the EMERALD AWAKENING involves SIX MAIN STAGES and activations:

1. The Maharic Seal + Liquid Light Cleanse (MUST always be done FIRST)²⁶
2. The Doradic Phase-I Current and Doradic Sphere
3. The Ka activation

²⁵ Signet Seal #4 is positioned at the crossing point of Kathara Spheres/Signets 6-7 and 5-8.

²⁶ See Kathara 1 Manual or CDs/DVDs

4. The opening of the Emerald and Red Star Crystal Seals
5. The release of the Kee-Ra-ShA²⁷ Seal and the 3 PRIMARY CURRENTS
6. Activation of the Ra Center to anchor the RAINBOW BRIDGE

Activating Doradic Phase-I Current

1. Breathe slowly and deeply for several breaths while visualizing or imagining a 4" Violet Dot on the center of the *inside* of your forehead. Make the color image as strong as you are able (if you can't yet perceive inner colors, simply imagine the Violet Dot being there).
2. Move the Violet Dot to the center of the brain, at the **Pineal Gland**, and then upward into the 7th Chakra, finally moving it out of your head to rest on the top of your skull, at the Crown Chakra.
3. Call to mind the Hierophant Symbol (Pale Silver Merkaba Star/Star of David). Visualize the Hierophant spinning 12" below your feet, within your Maharic Shield, and slowly INHALE...drawing the Pale Silver Hierophant up through the Central body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head.
4. When the Hierophant connects with the Violet Dot, visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body and into the Earth's Core, as well as upward into the 14th Chakra positioned 36" above your head. (This activates the Violet Ray of Transmutation).
5. Now, move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal—the Green Star—stationed at its core. This is the Green Star Crystal Seal that controls release of 4th Dimensional frequency – Phase I Doradic Current – into the body. INHALE, drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star.
6. EXHALE, expanding the Violet-Silver energy into the Green Star sphere. Repeat 2 more INHALE/EXHALE breaths, drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere.
7. At the end of the last EXHALE, imagine the Green Star POPPING, turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears. Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning at the center of the Heart Chakra (The Green-Violet ball is the storehouse for your Phase I Doradic Current; it's called the Doradic Sphere).
8. INHALE and draw Pale Silver energy from your Maharic Shield, through the Central Body Current, and into the center of the Doradic Sphere at the Heart Chakra...encasing the sphere in Pale Silver Light.

Awakening the Ka

1. Bring your attention back to the DORADIC SPHERE at the HEART CENTER.

²⁷ The ShA is pronounced ShA(Y)

2. INHALE pale silver energy up from the EARTH CORE to fill and expand the DORADIC SPHERE; breathe slowly and deeply 2-3 times ...
3. Now, put the tips of your fingers together, and feel the "fuzziness" of the energy flow...
4. Next, move the fingertips to the tailbone...INHALE energy from the Maharic Shield into the DORADIC SPHERE.
5. As you EXHALE, push PALE SILVER energy down to the fingertips and into the tailbone.....REPEAT 2-3 times and then remove the fingers.
6. Now, bring your attention to the 2nd CHAKRA (SACRAL)feel or visualize or just know ... a DOUBLE-TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2nd Chakra, the Sacral center.
7. Focus your attention on this; try to feel the crystal pushing....use your hands to help ease it forward, and out.
8. There is a smaller double-terminated crystal in the 3rd CHAKRA (SOLAR PLEXUS); this will release on its own because the currents have activated it to do so. Help it out with your fingers.
9. In the Heart Chakra, imagine a little sphere of energy, colored green. Bring this little green sphere more fully into focus...and you will notice a little black cube of energy inside it...look more closely again, and notice a smaller white cube inside the black one.
10. As you focus on the two little cubes, watch them merge together...feel a ripple of vibration as they do, and then...notice a little puff of smoke as they both disappear.

The body is now activated to open the 4th and 1st Crystal Seals; you are ready for **the EMERALD AWAKENING**...

Opening the Emerald and Red Star Crystal Seals

Opening the Emerald Star Crystal Seal

1. Now we will open the GREEN STAR CRYSTAL SEAL.....So, keeping your awareness on the Doradic Sphere, the GREEN-VIOLET-SILVER ball at the Heart Center.....INHALE,
2. and ... on the EXHALE, visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tailbone...to the 1st Cell.....at its very tip.
3. Breathe easy ... and take a moment to visualize the 1st Cell at the tip of your tailbone....as a WHITE-SILVER SPHERE...
4. Now within the WHITE SILVER SPHERE, visualize a GREEN SPHERE ... and then visualize a RED SPHERE inside the GREEN SPHERE ...
5. Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center ...

and on the next EXHALE visualize, or imagine, sending a cord of GREEN-VIOLET-SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tailbone.

6. AS you INHALE pull PALE SILVER LIGHT from your personal Maharic Shield, the platform-disc 12" below your feet, up into the tailbone and into the GREEN SPHERE.
7. As you do this, visualize the GREEN SPHERE 'pop' into a STARBURST of PALE GREEN-SILVER LIGHT.

This has opened the kundalini seal – your WHITE-SILVER and RED Spheres REMAIN as you left them earlier Now, we will work to open the **RED STAR CRYSTAL SEAL**

Opening the Red Star Crystal Seal

1. Return your awareness to the Doradic Sphere at the Heart Center....INHALE, and then on the EXHALE, push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cell at the tip of the tailbone
2. INHALE and draw PALE SILVER energy up from the personal Maharic Shield, the platform-disc positioned 12" below your feet, up into the tailbone, and into the red SPHERE ... inside the WHITE-SILVER SPHERE.
3. AS YOU DRAW the PALE SILVER energy into the RED SPHERE, visualize the RED SPHERE 'pop' into a STARBURST of PALE PINK-SILVER LIGHT.....and.....for the next few breaths, EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet...

You have now opened the Kee-Ra-ShA Seal ... so that the Sacred Flames of the Kee-Ra-ShA can be activated

Activating the Kee-Ra-ShA

The Kee-Ra-ShA appears as 3 little flames which exist in the 12th Chakra positioned 6" below the feet. The 3 flames are PALE BLUE, PALE YELLOW, and PALE VIOLET.

1. Begin by focusing deeply on the 12th Chakra, 6" below your feet, and the three little flames held there ... one is PALE BLUE, one PALE YELLOW, and the third PALE VIOLETWe'll take a few moments to do this....

If you have difficulty visualizing, just imagine they are there.

2. On the INHALE, draw the PALE VIOLET FLAME up from Chakra 12 ... into the central vertical column... and all the way up and out through the top of the head, to the 10th Chakra ... 6" above your Crown Chakra.....
3. Next, return your attention to the 12th Chakra, 6" below your feet ... allow yourself time to connect with the little PALE YELLOW-GOLD FLAME. Breathe easy.

4. On the next INHALE, draw the PALE YELLOW-GOLD FLAME up from Chakra 12 ... into the central vertical column ... and all the way up ... and out through the top of the head, to the 10th Chakra ... 6" above your Crown Chakra.....
5. Again, return your attention to the 12th Chakra, 6" below your feet ... and connect with the PALE BLUE FLAME... this FLAME is the INNER ARC of the COVENANT ... Take your time; breathe easy.
6. On the next INHALE, draw the PALE BLUE FLAME up from Chakra 12 ... into the central vertical column ... and all the way up ... and out through the top of the head, to the 10th Chakra ... 6" above your Crown Chakra.....
7. Now, visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra in a moment we will create the Kee-Ra-ShA SPHERE ... Breathe easy.
8. On the next INHALE, draw PALE SILVER energy from your personal Maharic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra.....
9. EXHALE gently and INHALE once more, drawing more PALE SILVER energy up into the 10th Chakra ... visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT ...
10. Breathe easy. On the next EXHALE, move the Kee-Ra-ShA SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet, and all the way down to the 13th Chakra at EARTH'S CORE.
11. As the Kee-Ra-ShA enters EARTH'S CORE, listen for sound tones with your inner ear...

These tones represent the AMENTI "PASS KEY" ... which opens your personal GRU-AL POINT (#1) – the 1st Cell in the Tailbone ... releasing the **Kee-Ra-ShA Flames** into your **Auric Field**.
12. Breathe easy ... Watch as the Kee-Ra-ShA FLAMES rise up your Maharic Pillar and emerge through your 1st Cell ... passing like radiating waves of PALE BLUE, PALE YELLOW, and PALE VIOLET
13. As the waves of color move through you, bring your attention to your first four Chakras: the base, the sacral, the solar plexus, and the heart ... and visualize or imagine each Chakra emanating a SILVER MAHARIC SHEATH or OVAL POD, completely surrounding each one ...

Activating the Ra Center in the Thyroid and Anchoring the Rainbow Bridge

1. Begin by moving your attention to the area of your 3rd EYE, and focus just inside your forehead ... a little above and behind your eye brows.....Breathe easy.
2. Now, visualize, or imagine, a DARK SILVER DOT in the position you are focused on ... in the area of your 3rd EYE... Take a little time.
3. INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull.
4. On the next INHALE, pull PALE SILVER ENERGY up from your personal Maharic Shield 12" below your feet, all the way up the central vertical current and into the DARK SILVER DOT on the top of your head...

As the PALE SILVER ENERGY reaches the DARK SILVER DOT, the SILVER DOT 'pops' into a SILVER STARBURST ...

5. On the next EXHALE, push the SILVER STARBURST down the central vertical channel, all the way to the tip of the tailbone ... EXPANDING the SILVER STARBURST FULLY into the 1st Cell...
6. Breathe easily and watch, as GOLD-SILVER-CURRENT emerges from the tailbone ... and begins to flow up through each Chakra ... from the 1st Chakra at the base of the spine ... up through the Sacral ... the Solar Plexus ... all the way up to the Crown Chakra ... we'll take a little time for this ...

From the Crown Chakra, the GOLD-SILVER-CURRENT continues upward out of the top of your head ... up through the 10th Chakra 6" above your head ... the 11th Chakra 18" above your head ... and finally the 14th Chakra 36" above your head.

7. Once the GOLD-SILVER-CURRENT reaches the 14th Chakra, it returns to the 1st Chakra ... the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel.
8. Bring your attention to the 2nd Chakra now ... we're going to create a GOLD-SILVER-BALL there, in the SEED SEAL at the center of the Chakra ... just imagine the Chakra as a bow tie shape, the SEED SEAL is at the narrow point in the middle. The GOLD-SILVER BALL is called the TEURIC SPHERE ...
9. INHALE and draw GOLD-SILVER-CURRENT from the GOLD-SILVER-SHEATH into the center of the Chakra ... as you EXHALE, create and EXPAND the BALL to surround the bow tie ...
10. Now, INHALE and move the GOLD-SILVER BALL up to the 1st HARA CENTER ... 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN TIEN) ... EXHALE GENTLY, allowing the BALL TO EXPAND.
11. On the NEXT INHALE, move the GOLD-SILVER BALL up to the SOLAR PLEXUS and EXHALE GENTLY.
12. INHALE and move the GOLD-SILVER BALL up to the HEART CENTER ... EXHALE GENTLY.....INHALE ... drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY, pushing cords of GOLD-SILVER CURRENT down each arm and into the PALMS ... bring your fingertips together and feel the fuzzy buzz of TEURIC PHASE 3 CURRENT.

You have now activated TEURIC PHASE 3 CURRENT in your palms – and – you are now able to run CURRENT from D-4 through D-8 to transmit to the THYROID GLAND ... to activate and anchor the Rainbow Bridge in others.....

You are now ready for the AMETHYST AWAKENING ... This technique works to bring in a burst of the Khundaray, Eckatic Blue frequency ... that sets the Amethyst Awakening in motion. (*Masters Templar Stewardship Manual Field Guide*)

Initiating the Amethyst Awakening

1. Complete the Maharic Quick Seal.

2. Place your attention at the center of your brain, inside your pineal gland. Imagine that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra). Imagine that you are going into move this Pale Violet Spark of Light straight up into your 10th Chakra 6" above your head ... imagine that the 10th Chakra is a disc of Light, Blue/Black – Sapphire.
3. Now see the disc of Light that was Blue/Black, take on a Violet hue. Try to feel it there, a small horizontal disc ... On the INHALE you will move this disc of Violet-Sapphire Light up to the 24 point Silver Star at the 14th Chakra and, on the EXHALE, move it down through the 10th Chakra, down through the Crown, down the Central vertical Current, down through your Personal Maharic Shield all the way down to the 13th Chakra at the Earth's Core ...
4. Notice, as you do this, a whole series of Violet-Blue Sparks flying out from the Planetary Maharic Shield, as if they are alive, as if electrical communication is taking place. Notice as this happens, that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you ... as this energy reaches your personal Maharic Shield, notice that it does the same thing as the Planetary Shields – throws out a shower of Violet-Blue sparks ... all communicating with each other about the mathematical instructions about what to do with your body, your crystal seals, your chakras ...
5. Now, move your awareness to the Pale Silver skin all round your body/etheric body ... and be aware too of the Main Vertical Current that you brought the Pale Silver cord through ... and at the same time, on each coming INHALE, bring up the Pale Silver-Violet-Sapphire energy, simultaneously, from your Maharic Shield to infuse the Pale Silver skin all round you.
6. Take a few breaths to do this and watch as the 3 colors flicker through you – when they reach the Heart Chakra feel them expand out ... and allow them to travel on up, all the way to the 14th Chakra ... expanding throughout every chakra as the Pale Silver-Violet-Sapphire energy flows up, through and all around you ...
7. See each chakra respond with a spiraling burst of Silver-Violet-Sapphire, backward and forward through both sides of the chakras until they all shift ... try to feel the process as it awakens all the cells of your body.

The brain cells and brain patterns begin to respond, activating the Fire Letters, setting the grid of frequencies necessary to activate the Fire Codes 7, 10, and 12 in the DNA Template. (*Masters Templar Stewardship Manual Field Guide*)

LEVEL TWO "RaB'nai" ORDINATION PROCEDURES

1. Preliminary Instructions

For Ordinand:

Explain what a Level-2 Ordination is. (reference the following paragraphs within section 1)

Purpose: The purpose of receiving **Ordinations** is to **expedite DNA activation**. The process is performed by someone who has the ability to run the specific frequencies. This individual will connect with the **Christos** of the individual desiring ordination and ask permission to continue with the ordination.

Once permission has been given then a frequency bridge will be created between the person desiring Ordination and their **Highest God-Seed Self**.

An **"Initiate"** is one who has been born with, or accepted, transmission (Melchizedek Initiation) of the morphogenetic field *imprint* of the full 12-Strand DNA Silicate Matrix, and has entered the path of Ascension through the Melchizedek Priesthood or the Melchizedek Cloister.

A **Level One "Minister"** is one who has accepted Ordination through the Melchizedek Priesthood or Melchizedek Cloister, by which the Rishi Level of personal identity is bonded to, and activated within, the DNA – to begin the process of activating DNA Strands 4-6 for the process of Alphi-Hova Body merger and Soul Integration, through which Soul Awareness embodies within the physical body.

A **Level Two "RaB'nai"** is one who has accepted Ordination through the Melchizedek Cloister for the purpose of accelerating the process of Higher Identity embodiment, by which the Over-Soul Identity begins to integrate with the conscious personality for acceleration of the Soul and Over Soul integration process and merger of the Betcha-Hova Body. The Ordination begins the activation of the 7 – 9th DNA Strands, which allows the individual to become a transmitter of the Silicate Matrix Imprint, and thus to conduct Level-1 Ordinations for others.

Level-1 and Level-2 ordinations may be administered simultaneously. Use only the Level 2 procedures in such cases. (Your Rishi will ensure the Doradic flows within the Teuric).

Include the Vow to the I AM along with the Consecration of the Temple when doing both levels together.

For Ordination Leader:

- Have Ordinands activate their Maharic Seal. If they're new to KS, lead them through the Maharic Seal Technique.
- Lead the Presiding Ministers through the technique for **"Opening the Healing Channels – Teuric Phase I Current."**

2. Preparation for Presiding Ministers

- Activate your personal Maharic Shield;
- Run your Teuric Phase I Current

3. Ordination Process

- Ordinands will stand; if there are several, the easiest is just to have them stand in a line or a circle.
- Ordinating Ministers will take places in front of the Ordinands.
- Ask, telepathically, the Ordinand's D-12 Christos Self for permission to proceed with the Ordination;
- Run a "Sheet" of Pale Silver Light from your own Maharic Shield (12" below your feet) to a point 12" below the Ordinand's feet to trigger activation of their Maharic Seal.
- Have the Ordinand Read Out Loud or Repeat Out Loud after you: **CONSECRATION OF THE TEMPLE.** (If Levels 1 AND 2 are being done, then read **VOW TO THE I AM** first, then follow it with the **CONSECRATION OF THE TEMPLE**)

CONSECRATION of the TEMPLE

From the Central Light from which we all emerge,
Let this Light flow through me now
And fill my parts that were once made empty,
With the wholeness of Divine Right Order.

On this day, I shall Consecrate my vessel;
Filled full with the Light and Sound of the Eternal Divine.
Today, I designate my body as a *Temple of the Living Light* ...
And I shall open my mind, eyes and heart
To the One True Divinity This I AM.

I AM a face of the One True God.
I AM a Light to the World.
May all things of lesser order be banished now from my Temple,
Let all but the Highest Order of Love, Peace, Compassion, Forgiveness,
Charity, Creativity and Power ...
Be washed away by the Current of Divine Light and Sound.

In Consecration of my Temple, I AM renewed ...
Making golden and Light-filled, all that I think, say and do.
I AM free, I AM Whole.
I redeem my vessel with the Eternal Innocence out of which all life springs.

I walk now as a temple of Divine Light and Sound,
My Temple, a room within the House of Many mansions,
Within the Eternal Fields of Creation.

And, SO IT IS.
In the name of the Melchizedek Cloister,
Sacred House of ONE,
Holy Order of the Yunasai,

Azurite Council of the Ra Confederacy Presiding.

- Stand in FRONT of the Ordinand. Place LEFT Hand over back of RIGHT Hand – and – with hands together place the RIGHT Palm over the 7th Crown Chakra (Hold thru # 6)
- INHALE a large breath of Pale Silver Maharic Energy, from the Earth Core, up to your Heart Center.
- (All on one breath) EXHALE while pushing a Pale Silver Cord from your Heart Chakra, down your RIGHT arm and INTO Ordinand's Crown Chakra - and - ALL THE WAY down their central vertical channel, and into the Earth's Core beneath their feet.
- PAUSE – listen/ feel with inner hearing for (or at least sense the vibration of) 3 simultaneous, inaudible, sound tones emerging from Earth's Core beneath the Ordinand's central vertical current.

(The tones are struck when your D-12 sub-harmonic Maharata Current, Silver Cord, pushes a replica of their DNA Template / Chakra Seals Coding into their 13th Chakra at Earth's Core. The tones are their *"Life Current Tones"*).

- When the 3 Tones are noted, INHALE rapidly and FORCEFULLY, drawing a Pale Turquoise (D-13 sub-harmonic) cord up the Ordinand's central vertical column – from THEIR OWN 13th Chakra – to meet your RIGHT Palm - still on top of the Ordinand's head. (This activates their 7th Star Crystal Seal).
- When FUZZY Energy is felt in your RIGHT Palm (indicating step 5 is done) INHALE a BALL of PALE TURQUOISE-PALE SILVER Frequency from their Crown Chakra, into your RIGHT Palm – as if the ball of energy sits between your right palm and their head.
- INHALE ...Imagine HOLDING the PALE TURQUOISE-PALE SILVER BALL in your RIGHT Hand
.....
- MOVE your RIGHT Hand (ONLY) over Ordinand's 4th Heart Chakra and INHALE the PALE TURQUOISE-SILVER BALL through your RIGHT Palm, UP your RIGHT Arm and into YOUR HEART Chakra
- Now, place your LEFT Palm OVER the back of your RIGHT Hand (which remains over Ordinand's Heart Chakra) and FORCEFULLY EXHALE, using the exhale breath to PUSH the PALE TURQUOISE-SILVER BALL from your Heart Chakra, through your RIGHT Arm, into your RIGHT Palm and INTO the Ordinand's HEART Chakra (activating their 4th Star Crystal Seal).
- INHALE FORCEFULLY as you move BOTH Hands to about 6" ABOVE the Ordinand's head ALLOW the electro-magnetic currents in your hands to DRAW the Ordinand's TURQUOISE-SILVER CURRENT UP from their CROWN Chakra, until it forms a SPRAY or BURST of LIGHT (mostly Silver, with bursts of Yellow, Magenta, Purple, etc.) about their head ... OPENING Chakra 10.
- With your LEFT Palm on the back of your RIGHT Hand, and RIGHT Hand over their 3rd Chakra, EXHALE to TRANSMIT Teuric Phase I Current into their Solar Plexus Chakra.

4. **Conclusion:** Song of Lyra, Vow to the I AM, and/or whatever Psonns seek to be heard.

Opening the Healing Channels – Teuric Phase-I Current

- 1 Breathe slowly and deeply for several breaths while visualizing or imagining a 4" Sapphire Dot on the center of the *inside of your forehead*. Make the color image as strong as you are able. (If you can't yet perceive inner colors of visualization, simply imagine the Sapphire Dot as being there).
- 2 Move the Sapphire Dot to the center of the brain at the **Pineal Gland**, and then upward into the 7th **Crown Chakra**, from the inside of the head moving upward and outward until the Sapphire Dot rests on top of your head at the Crown Chakra.
- 3 Call to mind the **Hierophant Symbol** (Pale Silver Merkaba star formed by combining 2 Merkaba Stars).²⁸ Visualize the spinning Hierophant stationed 12" below the feet within your **Maharic Shield** and slowly **INHALE**, drawing the Hierophant up through the Central Body Current, up to meet the Sapphire Dot at the 7th **Crown Chakra** at the top of the head. When the Hierophant connects with the Sapphire Dot visualize the Sapphire Dot bursting into a 4" **Vertical Pillar** of Sapphire-Silver Light. Imagine the Sapphire-Silver Pillar running down through the body into the Earth Core and upward to the 14th **Chakra** 36" above the Head. You have activated the **Sapphire Ray of De-densification**.
- 4 Move your attention to the **Pineal** and imagine a *small Violet Spherical Crystal* – the **Violet Star** – stationed its core. This is the *Violet Star Crystal Seal* that controls release of the 7th Dimensional frequency – Phase I *Teuric Current* – into the body. **INHALE**, drawing Sapphire-Silver energy from the Sapphire-Silver Pillar into the Violet Star.
- 5 **EXHALE**, *expanding* the Sapphire-Silver energy into the Violet Star Sphere.
- 6 Repeat 2 more **INHALE-EXHALE** breaths, drawing Sapphire-Silver Energy from the Pillar and expanding it into the Violet Star sphere.
- 7 At the end of the last EXHALE, imagine the **Violet Star popping**, turning into a spinning Violet and Sapphire Starburst of Light, as the Sapphire-Silver Pillar disappears at the pineal.
- 8 Move the Violet-Sapphire Starburst of light to the 4th chakra. Spin the Violet-Sapphire Starburst faster until it becomes a ball of Violet-Sapphire Light, about the size of a grapefruit, spinning in the center of the 4th Heart Chakra. The Violet-Sapphire ball is the storehouse for your Phase I Teuric Current; it is called the **Teuric Sphere**.
- 9 **INHALE** and draw Pale Silver energy from your **Maharic Shield**, through the Central Body Current and into the center of the **Teuric Sphere** at the 4th Heart Chakra, encasing the Sphere in translucent Pale Silver Light.
- 10 **EXHALE** quickly, and push 2 Cords of Violet-Sapphire energy—**Teuric Cords**—from the Teuric Sphere *down the inside* of your arms, one Cord through each arm. As the ends of the Teuric Cords reach the inside of your hands, notice a sensation of mild resistance as the Cords push against the *etheric membranes* covering the small chakras in the palms.
- 11 **INHALE** a full breath, drawing Silver energy up from the **Maharic Shield**, into the Teuric Sphere at the 4th Chakra.

²⁸ For those already working with the Maharic Seal, the hierophant symbol of the Merkaba Star can be replaced by the Eckasha Symbol.

LEVEL THREE "REGENT" ORDINATION PROCEDURES

1. Preliminary Instructions

For Ordinand:

Explain what a Level-3 Regent Ordination is.

Purpose: The purpose of receiving **Ordinations** is to **expedite DNA activation**. The process is performed by someone who has the ability to run the specific frequencies. This individual will connect with the **Christos** of the individual desiring ordination and ask permission to continue with the ordination.

Once permission has been given then a frequency bridge will be created between the person desiring ordination and their **Highest God-Seed Self**. The Highest God-Seed Self will send the energies into the person being ordained **via** the one doing the ordination to release the **Cranial-Sacral Seals in Chakras 2 and 8, the Will Centers**, so that the individual will be able to bring those frequencies in on their own

Level 3-Regent: One who is born with a contract to embody as a full Avatar during the present incarnation. Avatar Contracts, which represent activation of DNA Strands 10-12, are decided prior to birth in agreement with the Higher Councils of Light (Meta and Ultra-terrestrial Identity Gestalts from dimensions 13-the Eckatic Level.)

Not everyone has such contracts of Avatar embodiment. One can awaken to Avatar Contracts through working through the previous levels of Ordination. It is between "you and God." Avatar embodiment represents merger of the Mahara Hova Body and expansion into the "Christed" identity level.

For Ordination Leader:

- Consummates will pull Heliotalics; both the Magnetic and the Electrical come in vertically: the Magnetic from beneath your feet, way out in the Universe beyond Chakra 15, at the Ecka Level (Density 6); the Electrical from beyond Chakra 14 (36" above your head) way out in the Universe at the Ecka Level (Density 6).
- Regent Ordination releases Cranial-Sacral Seals in Chakras 8 & 2 (Will Centers). Male (Electrical) works at Chakra 8, leading w/ Right hand (left hand placed on top); and, Female (Magnetic) works at Chakra 2, leading w/ Left hand (right hand placed on top).²⁹
- Run Magnetics first, and then Electricals. Females will stand in back of Ordinand and proceed down the row until complete. Male will stand in front anchoring the Heliotalics, and will mirror the Female's procession down the row. When she is done, they will change places. Male will then stand in back of the Ordinand and proceed down the row until complete. Female will stand in front anchoring the Heliotalics, while mirroring the Male's procession down the row.
- Any spontaneous additions are of Rishic guidance in the specific Consummate's and Ordinand's energetic exchange

²⁹ Any of the genders may perform as the male or female. Whoever performs as the male must bring in the electricals and whoever performs as the female must bring in the magnetics.

- Female Consummate will place her right hand over the back of her left hand, then place hands at Chakra 2, allowing the magnetic Heliotalic energies to flow through her to Chakra 2. When done, she will switch places with the Male Consummate.
 - Female Consummates should now be in front of the Ordinand anchoring the Heliotalic energies; the Male Consummates should be in back of the Ordinand.
 - Male Consummate will place his left hand over the back of his right hand, then place hands at Chakra 8, allowing the electrical Heliotalic energies to flow through him to Chakra 8. When done both will remain in place until a sense of completion is felt.
4. **Conclusion:** Song of Lyra, Vow to the I AM, and/or whatever Psonns seek to be heard.

Glossary

Archetype: The Archetype Identity is the portion of the multi-dimensional mind that corresponds to the 5th Dimension, the center of the Soul Matrix and Alphi Hova Body.

Anchoring the Archetype imprints the personal morphogenetic field with the realigned template for DNA strands 1-6 within.

Activating the Archetype begins the process of manifesting DNA strands 1-6 within the operational gene code, once they have been realigned through the Anchoring process, allowing a progressive embodiment and consciousness awakening of the Soul Matrix Identity within the Incarnate Identity.

Ascended Master: True Ascended Masters are not identities who have progressed in partial ascension within the dimensional scales of the Time Matrix. An Ascended Master is a highly evolved Ultra-terrestrial gestalt of consciousness, in pure ante-matter wave form, that exists beyond the dimensionalization of the Time Matrix, within the 3 levels of the non-dimensionalized Energy Matrix. The Ascended Master is also the level Ultra-terrestrial personal identity that corresponds to the final 3 of 8 Hova Bodies, the Yusetu Hova Bodies, within the morphogenetic anatomy of the human.

Crystal Body: In relation to human beings, the 8 Hova Bodies within the anatomy of the multi-dimensional human morphogenetic field are collectively referred to as the Crystal Body. The Crystal Body is the morphogenetic field, which forms as a crystalline structure of interwoven Partiki units due to the geometrical relationships between the light, sound and scalar waves upon which it is built. The Partiki Grids of the Crystal Body form the scalar grids of electro-tonal standing wave patterns that form the structure of the Hova Bodies, which serves to house the individuated stations of consciousness within dimensionalization. The term Crystal Body is used in reference to the multi-dimensional morphogenetic field, of a person, object, planet, galaxy, universe or cosmos. It contains the 8 Hova Bodies of human anatomy, their corresponding levels of mind and holds the imprint for the DNA-RNA pattern through which the biological genetic code of the physical body manifests.

The Crystal Body of both biological and non-biological forms represents the geometrical template upon which particles and anti-particles group to "flesh out the form in matter." The Crystal Body morphogenetic field represents the causal aspect of all manifest effects, and thus it is the level of energetic reality and consciousness through which manifestation can be directly affected.

Energy Matrix: Within the morphogenetic structure of cosmic design, the Energy Matrix exists within the Consciousness Field of the Central Source of Creation (within the Monad), as a Unified Field of Energy within which the smaller dimensionalized reality fields of Time Matrices exist. The Energy Matrix represents the first area of projection into which consciousness flows as it individuates from the Monad level of the Central Creative Source. The Energy Matrix has 3 primary levels of vibration, scalar grids built upon sound tones that form a trinity of non-dimensionalized reality fields and gestalts of eternal consciousness awareness.

The Eckatic Matrix is the mid-vibration reality field and the Resonant Tone (combined Base Tone and Over Tone) of the Trinity that represents the first scalar grid into which consciousness will pass in its individuation from the Monad, and the last scalar grid through which consciousness will move in its expansion back into the Monad.

The Polaric Matrix is the high vibration reality field and Over Tone of the Trinity, that represents the 2nd scalar grid into which consciousness will pass in its individuation from the Monad, and the 2nd to last scalar grid through which consciousness will move in its expansion back into the Monad.

The Triadic Matrix is the low vibration reality field and Base Tone of the Trinity, and represents the 3rd scalar grid into which consciousness will pass in its individuation from the Monad, and the 1st scalar grid consciousness will pass into after ascending out of the dimensionalized constructs of the Time Matrices.

The Energy Matrix is the point at which vibrations of the consciousness of Source and its individuated gestalt God-Seeds and Monads (tonal structures of consciousness) emerge into electro-tonal structures of light and electro-magnetism, lighting the morphogenetic scalar grids and setting the core morphogenetic field within which all manifest creation takes place. The Energy Matrix is considered to be the Cosmic structure of conscious energy within which smaller Universal structures take place. The 3 Yusea Hova Bodies of human morphogenetic structure and their 3 levels of Ascended Mastery identity (the Geomantic Entity, the RishA and the Eckar) correspond to the 3 scalar grids of the Energy Matrix.

Geomancy: A specific pattern of internal light (electricity) and sound (vibration/frequency) used in the mental direction of energy through the human morphogenetic field. This pattern of light-sound represents a specific scalar wave template, built upon specific electro-tonal units of sound frequency that are imbued with multi-dimensional electrical current. The Geomancy serves as a wave guide and manifestation template for energy movement within the human morphogenetic field.

Gestalt Identity: One identity formed of many smaller identities, whose consciousness is greater than the sum of its parts. The primordial structure of identity individuation from Source as occurs within the process of Stair Step Creation. The consciousness of every being enters creation through the process of Stair Step Creation, the progressive fragmentation of Source identity into individuated gestalts of consciousness and its reciprocal accretion (drawing together) of individuated identities back through the expanding gestalts of consciousness in return to Source identity.

God-Seed: The God-Seed represents the **core tonal structure** out of which the morphogenetic fields of multiple Monads emerge. It is the first projection into gestalt identity that consciousness encounters when it individuates from Source consciousness. The God-Seed represents an eternal station of gestalt of identity that exists as a complex geometrically organized tonal grid, within which infinite numbers of Monads (Cosmic Families of gestalt consciousness) and their inherent Energy and Time Matrices are created. The consciousness gestalt of the God-Seed is known as the Yusette Identity level, the "I Am This I Am" eternal identity that perpetually exists in a state of At-One-Ment with Source.

The Yunasai (Central Creative Source or God) creates within itself sets of 24 Primary God-Seeds. Each God-Seed progresses to create within itself sets of 12 Monads, the scalar grids of gestalt identities or "Cosmic Families of Consciousness," that hold the 8 Hova Bodies and identity levels of the human consciousness. Each Monad holds within itself sets of 12 Energy and Time Matrices and their inherent 8-level Hova Body structures.

The God-Seed represents the Original Point of Creation for all consciousness manifesting and expressing within the Time and Energy Matrices.

Harmonic Universe: A set of 3 dimensions that exists within a greater structure of 5 Harmonic Universes, which together represent the 15-Dimensional morphogenetic field of one Time Matrix. Harmonic Universes create the dimensional unified fields within which 3-dimensional reality fields take place. All dimensions and Harmonic Universes take place within the same space, but each possesses its own vibratory rate and

angular rotation of particle spin, thus creating a unified field of interwoven multiple universes and dimensionalized reality systems that appear invisible to each other.

Each Harmonic Universe (HU) represents a stage of matter density between gross matter in the slowest vibrating harmonics and pure conscious ante-matter wave-form in the highest vibrating harmonics. Each HU also represents a universal time cycle that moves in synchronization with the time cycles of the other Harmonics Universes; within each universal time cycle there are 6 primary smaller time continua which create cycles of linear time within which manifest beings evolve.

Hova Bodies: Hova Bodies are vibrating tri-tonal grids of light, sound, electro-magnetic and scalar waves that form the morphogenetic field / Crystal Body of multi-dimensional human anatomy. The 5 Ariea³⁰ Hova Bodies correspond to the 5 Harmonic Universes of one 15-Dimensional Time Matrix and the 3 Yusetu Hova Bodies correspond to the 3 levels of the Energy Matrix.

The 5 Ariea Hova Bodies are:

HU-1 (Harmonic Universe-1) - Nada Hova Body - Incarnate Identity - gross matter density – the subconscious, instinctual/intuitive and reasoning minds - dimensions, chakras, auric field levels and DNA strands 1, 2, and 3. Holds the individual Cellular Record.

HU-2 – Alphi Hova Body – Soul Matrix identity gestalt – semi-etheric matter density – the astral, archetypal and angelic minds – dimensions, chakras, auric field levels and DNA strands 4, 5 and 6. Holds the Race Memory Record.

Merger of the Alphi Hova Body with the Nada Hova Body of the Incarnate Identity constitutes Soul Integration, the state of cognitive expansion within which one begins to develop Multi-vector Consciousness.

HU-3 – Betcha Hova Body – Over-Soul Matrix identity gestalt - etheric matter density – the ketheric, monadic and keriatric minds – dimensions, chakras, auric field levels and DNA strands 7, 8 and 9. Holds the Planetary Memory Record.

HU-4 – Mahara Hova Body – Avatar identity gestalt – pre-matter Liquid Light density – the Christiac, Buddhaic and Nirvanic minds – dimensions, chakras, auric field levels and DNA strands 10, 12 and 13 (highest level of identity that can embody in a human form). Holds the Galactic Memory Record.

HU-5 – Raja Hova Body – Rishi identity gestalt - ante-matter wave form density – Universal mind – dimensions, chakras, auric field levels and morphogenetic codes 13, 14 and 15. Holds the Universal Memory Record.

The Energy Matrix – Yusetu Hova Bodies:

Triadic Matrix – Tanotra Hova Body – Geomantic Entity identity gestalt. Cosmic Trinity.³¹

Polaric Matrix – DiOmni Hova Body – RishA identity gestalt. Cosmic Polarity/

³⁰ Also called the 5 Ar-E-a Bodies.

³¹ The Cosmic Trinity, Cosmic Polarity, and Cosmic Unity, all parts of what are considered the Memory Matrix, together form the Cosmic Conscious Mind. (See Page 17 of the *Tangible Structure of the Soul Handbook*)

Hova Bodies are structured as sets of 8 concentric spheres of electro-magnetic and scalar waves, with the lowest vibrating spheres at the core, that surround and permeate the human body, hold the consciousness in dimensionalized levels and serve as the morphogenetic templates upon which the consciousness, Merkaba Fields, DNA, auric field, chakra system, and physical body matter will manifest within the Time and Energy Matrices. Each Hova Body houses 1 of 8 portions of human multi-dimensional identity and the corresponding 3 dimensions (or frequency fields), 3 levels of mind, 3 chakras and 3 DNA strands associated with each identity level. Through the process of progressively merging the Hova Body levels an incarnate identity progressively expands its awareness into each higher identity level and activates the corresponding 12 DNA strands, while transmuting the body matter into progressively less dense states of matter for Dimensional Ascension.

Keylonta Mechanics: The science of Light, Sound, the Sub-conscious Symbol Codes and the Base Codes of Matter. In Keylontic Science technique, the blueprints for manifestation are guided and directed to a higher order through directly influencing the morphogenetic templates upon which manifest forms and events are created.

Keylontic Science: The science of multi-dimensional Morphogenetic Fields – the science and art of consciousness and creation. The primary tools of Keylontic Science (KS) are the interdimensional light, sound, electro-magnetic and scalar wave spectra and the scalar fields (standing electro-tonal wave grids) of which morphogenetic fields are composed. KS uses specific scalar templates to interact directly with the movement and structure of energy within morphogenetic fields. The scalar templates of KS are called Geomancies and Geomantic Codes.

Merkaba: Electro-magnetic Merkaba Spirals are a naturally occurring configuration of energy through which the multi-dimensional bio-energetic field of any matter form manifests. They are carriers of energetic substance from the morphogenetic field into form manifestation. Merkaba Spirals appear as spiraling, tetrahedral, funnel-shaped vortices of energy within the bio-energetic and morphogenetic fields. Some of the Merkaba Spirals are magnetic receivers of energy, and have a counter-clockwise spiraling spin. Others are electrical transmitters of energy and have a clockwise spiraling spin. Merkaba Spirals appear in sets of counter-rotating spirals, through which energy is passed between the Universal Unified Field of energy, the personal morphogenetic field and the manifest form. Everyone has sets of Merkaba Spirals.

There are smaller Merkaba Spirals, which bring energy in from each dimensional Unified Field into the personal morphogenetic, to "fill the body form out in particles" for manifestation of form and identity. These are called Dimensional Merkaba Spirals.

There are larger Merkaba Spirals that span sets of 3 dimensions, which serve to organize and govern the processes of the smaller Dimensional Merkaba Spirals; the larger Merkaba Spirals are called Harmonic Merkaba Spirals.

Merkaba Field: When Harmonic Merkaba Spirals from 1 set of 3 dimensions merge with those from another set of 3 dimensions, they form a Merkaba Field, a set of 2, spiraling, counter-rotating tetrahedral funnels of energy that take on the form of a Star-tetrahedron. Formation of progressive Merkaba Fields, through combining Harmonic Merkaba Spirals from each set of 3 dimensions (from each Harmonic Universe) in the 15-Dimensional Matrix progressive creates the various Phases of the Merkaba Vehicle.

Merkaba Ratios: The full natural Christos Merkaba Spin Ratio of Density-1 has a natural ratio of particle and anti-particle balance. The top electrical, anti-particle (expanding energy) spiral of the Merkaba rotates

clockwise at 33 and a 1/3rd rotations every trillionth of a nanosecond (RTNs). The bottom magnetic, particle (contracting energy) spiral of the Merkaba rotates counterclockwise at 11 and 2/3rd RTNs. It has more Electrical Thrust than Magnetic Draw; a Higher Frequency, Less Dense, Self-perpetuating, Eternal, Christos Matter-base that functions in perpetual motion upon a natural structure of Internal Merkaba Fields that perpetually circulate Universal Life Force Currents between the non-manifest consciousness of Source and the expressions of manifestations.

The unnatural Anti-Christos Merkaba Spin Ratio creates a top magnetic, particle (contracting) spiral that rotates counterclockwise at 34 RTNs. The bottom electrical, anti-particle (expanding) spiral rotates clockwise at 21 RTNs. It has more Magnetic Draw than Electrical Thrust; a Lower Frequency, More Dense, Self-consuming, Finite, Anti-Christos Matter-base that functions for a limited time upon inorganic structures of Externalized Merkaba Fields that "vampire" and consume Life Force Energy from other organic systems in order to self-sustain.

Merkaba Vehicle: The Merkaba Vehicle is a configuration of spinning Merkaba Fields that builds within the bio-energetic field of a person as they progressively merge the Hova Bodies, activate dormant DNA and chakras and release the Kee-Ra-ShA (Kundalini) Spirals and Pineal Gland Seals in the process of Higher Identity Integration. The Merkaba Vehicle allows for release of one's phase-lock into one time continuum and Harmonic Universe. Activation of the Merkaba Vehicle creates a vehicle of inter-dimensional light, sound, electro-magnetic and scalar wave spectra that allows for transmutation of cellular form into light (ante-matter) and back again, through which transmigration (movement) into various time cycles can occur.

Merkaba Phases: Each level of higher Hova Body merger with the Incarnate's Nada Hova Body represents a Phase in the building of the Merkaba Vehicle. The correspondences are as follows:

Nethra Phase: Most contemporary humans have yet to experience Soul Integration and their bio-energetic fields and consciousness remain phase-locked within the Nada Hova Body and 3-dimensional Incarnate identity, a condition that is called Nethra Phase Merkaba Vehicle.

Hallah Phase: Alphi Hova Body (Soul Integration) creates Hallah Phase Merkaba Vehicle, a 6-dimensional vehicle through which bi-location or body and consciousness between Harmonic Universes 1 and 2 can occur.

Quatra Phase: Betcha Hova Body (Over-Soul Integration) creates Quatra Phase Merkaba Vehicle, a 9-dimensional vehicle through which full displacement from Harmonic Universe-1 to Harmonic Universe-2 and bi-location between Harmonics Universes 2 and 3 can occur.

Mahunta Phase: Mahara Hova Body (Avatar Integration) creates the Mahunta Phase Merkaba Vehicle, a 12-dimensional vehicle through which full displacement from Harmonic Universe-2 to Harmonic Universe-3 Etheric matter and bi-location between Harmonic Universes 3 and 4 can occur.

Rahunta Phase: Raja Hova Body (Rishi Integration) creates the Rahunta Phase Merkaba Vehicle, a 15-dimensional vehicle through which full displacement from Harmonic Universe-3 Etheric matter to Harmonic Universe-4 Liquid Light Pre-matter and bi-location between Harmonic Universe 4 and the Triadic Level of the Energy Matrix outside of the Time Matrix can occur.

Monad: The Monad Identity is the portion of the multi-dimensional mind that corresponds to the 8th-Dimension and the God-Seed, the center of the Over-Soul Matrix and the Betcha Hova body, through

which the Hova Bodies and identity levels in the Time Matrix connect to the God-Seed through the Hova Bodies stationed within the Energy Matrix.

The Monad is a 3-dimensional scalar grid (Hova Body) that houses the Over-Soul Gestalt Identity in dimensions 7, 8 and 9 (HU-3) and that simultaneously exists as a fixed pattern of tonal vibration within the God-Seed, within which the scalar grids of the 8 Hova Bodies reside. The 8th-Dimensional Monad Identity connects to the Monadic Body in the God-Seed, the tonal morphogenetic field that contains the "Cap Stone Codes," which connect the Raja Hova Body (Rishi Identity) of HU-5 to the 3 levels of Ascended Mastery in the Energy Matrix, and the God-Seed Gestalt Identity within the core of the God-Source.

Anchoring the Monad imprints the personal morphogenetic field with the realigned template for DNA strands 1-9.

Activating the Monad begins the process of manifesting DNA strands 1-9 within the operational gene code, once they have been realigned through the Anchoring process, allowing a progressive embodiment and conscious awakening of the Over-Soul Matrix Identity within the Incarnate Identity.

Morphogenetic Field: A geometrically arranged Crystalline Matrix of Consciousness. Source Identity can perpetually experience itself in individual, manifest forms through projection of its consciousness into the holographic structure of dimensionalized Morphogenetic Fields.

Multi-Vector Consciousness: Where the embodied awareness becomes able to simultaneously perceive and interact with multiple space-time coordinates and more than a singular time continuum and to access extraterrestrial and future-time reincarnational memory through activation of DNA strands 4-6.

Partiki, PartikA, and Particum: Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission / fusion generators. Partiki is Ante-Matter, Particum is Matter, and PartikA is Anti-Matter.

Rishi: The Rishi Identity is the portion of the multi-dimensional identity that corresponds to the Raja Hova Body of Harmonic Universe-5, contains the 15-Dimensional Universal Mind and exists in a state of pure, conscious Ante-matter wave-form. The Rishi Identity represents the 15-Dimensional state of cognitive expansion one experiences following transmutation out of Pre-matter and space, time and matter perception. The Rishi is a Gestalt of Meta-terrestrial Consciousness, that appears as a flaming sphere of light when viewed from lower dimensions.

Scalar Grids: Constructs of consciousness, light, sound, and electro-magnetic energy built upon fixed points of sound (vibration) which form a geometrically arranged Crystalline Matrix of Consciousness called a Morphogenetic Field.

Silicate Matrix: The original human genetic imprint also called the Diamond Sun DNA Code. It is designed to manifest 12 strands of operable DNA, which allows for perception and embodiment of, and bodily transmutation-transmigration through, 12 dimensional fields and their corresponding levels of matter density.

Soul Integration: Full Soul Integration expands the Incarnate Identity from a 3-Dimensional consciousness to a 6-Dimensional consciousness, activating dormant DNA strands 4-6, through which the Incarnate becomes a fully embodied Soul. A fully embodied Soul has a 6-Dimensional perceptual field, a progressively expanding reincarnational memory and is capable of experiencing clairvoyance,

clairaudience and conscious astral projection in 6 dimensions, and bi-location in 2 Harmonic Universes through entering Hallah Phase Merkaba, once these skills have been honed.

Stair Step Creation: Stair Step Creation involves the projection of consciousness from Source into progressively smaller gestalts of individuated consciousness, that become manifest forms of sentient, creative life within the Macrocosmic structures of the Time and Energy Matrices.

Yunasai: One Source of Creation – the Point of Union.
